NUMBER 42

GUERRILLA WARFARE SEEMS CERTAIN IN RUHR DISTRICT

Rheims, Feb. 19.—Sixteen persons were killed and thirty-eight injured in a collision of the Paris-Nancy Express with a freight train here last night.

Dalhousie, Feb. 19.—Three French were killed and more than thirty injured when five engines were sent crashing into the rear of a French engineers' train between Weitzmar and Dalhousie. Signals on the line failed to work it was reported. The French blame sabotage.

One Belgian soldier was killed and seven were wounded when a Belgian train hit a French supply train at Gafeld near Duren.

Sentences will be immediately inflicted upon those found responsible, it was announced, and the French and Belgians are taking extraordinary precaution throughout the Ruhr to prevent further accidents.

Essen, Feb. 19.—Fighting between French soldiers and German policemen in different parts of the Ruhr was reported today and the situation seemed drifting toward guerrilla warfare.

A German policeman shot and wounded a French soldier at Gelsenkirchen, the latter returning the fire and wounding the policeman.

Feeling throughout the occupied areas became extremely bitter, this clash coming a few hours after a French officer was found dead, believed slain by German policemen. Several other clashes between police and troops were reported.

STAND REVERENTLY BEFORE BIER OF LONG DEAD KING

Luxor, Feb. 19.—Pharaoh Tutankhamen, dead for thirty-five centuries, is holding court once more on the banks of the Nile.

Foreign potentates, representatives of kings, whose ancestors were painted savages when Tutankhamen died famous warriors and alien nobles filed slowly into the palace of death where the ancient monarch now holds sway and stood reverently before his catafalque.

Visitor From Renova Gets Gay On Our White Way; Costs Him \$7.00

A railroad man said to be from Renova had the temerity to tackle some Clearfield county moonshine last evening and as a result went down for the count. Burgess Kittelberger doing the counting this morning.

After underestimating his capacity or the 'shine's wallop, the downriver visitor got real gay and not only passed, but attempted to "clean up" the bowery. Not having a Board of Health permit the Clintonite quickly fell into the hands of Chief of Police McMullen and Officer Woolridge who stowed him away at the "Borough Tavern." Burgess Kittelberger did the "counting" this morning and when he got up to \$7.00 the now thoroughly repentant visitor coughed up and was allowed to go his way.

ESCAPING GAS IS FATAL TO TWO IN PITTSBURGH FAMILY

Pittsburgh, Pa., Feb. 19.—Two persons are dead and seven more are in the Pittsburgh Hospital today suffering from the fumes of illuminating gas, which traveled along water pipes from a broken gas main to their home on Market street here.

Philadelphia, Feb. 19.—Three men and a woman were killed and six other persons were overcome by escaping illuminating gas over the week end, according to police reports today. Three of the victims met death by inhaling the deadly fumes.

TWENTY-TWO DEAD IN CATASTROPHE AT INSANE HOSPITAL

New York, Feb. 18.—A terrific blast set by dredgers in Hell Gate last night rocked the building of the Manhattan State Hospital for the Insane of Wards Island in the East River, and set the 6,338 inmates cowering and wailing within sense of impending doom.

Attendants calmed them and got them to bed, but before morning the doom fantasied by the disordered brains had come true for 22 of the maddened. They had been burned to death in a fierce fire that swept the west wing of the main building. Three heroic attendants died with them, striving to the last to rescue them.

Hospital authorities and City Medical Examiner Morris, who rushed to the scene, said that in all probability the blast had been the immediate cause of the fire. According to their theory it caused a break in the insulation of electric wires in the attic of the building. A short circuit they think did the rest.

The fire was discovered at 5:05 o'clock by Michael Campbell, an attendant in Ward 43, in which all the fatalities occurred. His calm, heroic work and that of James Hill, attendant in charge and Patrick Billigan, of Hartford, Conn., Geo. Emo, and George Reiss, the three attendants who were burned to death, prevented a further holocaust.

Campbell manned a hose line and fought back the flames, while the others ran up and down the 200 foot corridor, rousing the inmates with the cool order "all out for breakfast."

As fast as the maniacs, headed by Marcus B. Heyman, as the most dangerous on the island, could be marshaled from their rooms, they were marched in orderly procession to the fire proof dining hall, far from the scene of the fire.

Seventy of the 92 inmates of Ward 43 had been led or carried to safety, when a water tank in the blazing attic, crashed through the ceiling, completely blocking the corridor to safety and filling the hall with flames and smoke. City firemen, fighting their way past the blazing barrier, brought out several screaming maniacs, and several who had been overcome by smoke while dressing for the "breakfast" call. Most of the dead were found in the room and corridor beyond the fallen tank. Several were believed to have been carried down and buried beneath debris when the floor gave way.

Seventeen bodies of inmates and one believed to be that of an attendant had been recovered tonight. In (Continued On Page Two)

Babe and Baby

The call of the spring training camp has broken the ballplayer's home ties. Here is Babe Ruth saying good-by to his little daughter as he is about to leave for the Yankee camp in Hot Springs.

The Feminine Bloc in Congress

This is the first picture taken of the three women members of Congress. Left to right, Congresswomen Huck of Illinois, Nolan of California and Roberts of Oklahoma. Mrs. Huck and Mrs. Nolan were elected to fill the unexpired terms of their husbands who died while in office.

COOPER TOWNSHIP LOST HIGH SCHOOL IN FIRE YESTERDAY

Cooper township lost its commodious township high school by fire last night. The high school building was built only four or five years ago at a cost of \$18,000 and was a model structure, containing four classrooms, auditorium, offices and laboratory for scientific subjects. In addition to the building being a total loss, all the furniture, equipment, books, and all the school records of the district were lost.

The fire is believed to have started about seven thirty as passersby say they smelled smoke at that hour but the blaze, which no doubt had been smoldering for a long time did not break out until after ten o'clock. When the fire was discovered, the building was dense with smoke and no one could enter.

The new building set at what is known as the "crossroads" where the road from Kylertown to Lansie intersects with the road from Wamburne to Grass Flat.

Housing the pupils is quite a problem but it is understood that the Kylertown four room building will be utilized for a high school. At present only three rooms are being used in the Kylertown building and it is the plan to house the grade pupils temporarily in the churches.

The total loss is set at better than \$25,000 and \$10,000 insurance was carried.

FOUR NEGROES ARE BURNED TO DEATH IN APARTMENT FIRE

New York, Feb. 19.—Four negroes were burned to death and one negro and three police were overcome by smoke when fire started from an overturned lamp swept a four story apartment house in Fleet street, Brooklyn early today.

The dead are Mrs. Blanche Henley, her two children and her mother. Wm. Henley, the father, discovered the flames and ran into the street to give the alarm before awakening the family. By the time he had returned the flames had barred entrance to the Hanley apartment.

Commercial Club Will Observe Patriotic Dates This Evening

The meeting of the Commercial Club at Jordan's this evening at 6:15 will be of a patriotic nature and should prove one of the most spirited they have had for some time. The orator for the occasion is Ward Fleming, Esq., of Philipsburg who will pay fitting tribute to Washington and Lincoln and make the eagle scream in Centre county style. Dick Martin will furnish the music and "Y. M. C. A." Pearce will lead the singing so don't miss this treat.

WARMER WEATHER IS PROSPECT FOR THE BALANCE OF WEEK

Washington, Feb. 19.—A definite break in the cold wave of the past week in nearly all the territory east of the Mississippi, the Weather Bureau forecasted today. Warmer weather tonight and Tuesday was forecasted.

CHICAGO LEADERS OF LABOR BATTLE; ONE IS SHOT DEAD

Chicago, Feb. 19.—Steve Kelleher, prominent Chicago labor leader was shot to death by Daniel McCarthy, another labor leader in a spectacular gun battle in a crowded cabaret here early today.

Mr. Thomas Golden, an innocent bystander was wounded in the shoulder.

McCarthy fled but was later captured by police and is alleged to have confessed. The shooting was the result of dissension in the ranks of a Chicago Building Trades Council, police believe. Kelleher was the twenty-fourth victim of labor fights in Chicago during the past ten years, police records show.

RENEWED CIVIL WAR MARKS END OF THE IRISH AMNESTY

Dublin, Feb. 19.—Renewed civil war marked the end of the Free State amnesty offer today. Fighting between national troops and irregulars occurred and a rebel campaign of arson and bombing was resumed. Extraordinary activity on the part of the Free State troops is believed to preface a great drive against the insurgents.

In North Kerry rebel leader Pierce asked and obtained extension of the amnesty in his district until next Tuesday to enable him to gather scattered bands for surrender.

Mrs. Raizen Guilty Of 2nd. Degree Murder; To Be Sentenced Tomorrow

New York, Feb. 19.—Attendants kept a constant watch over Mrs. Lilian Raizen, convicted slayer of Dr. Abraham Glickstein, to prevent a possible attempt at suicide today, while announcement was made that sentence will be passed tomorrow. A jury this noon brought in a verdict of second degree murder. Mrs. Raizen is near collapse.

Saltsburg Lothario Is Still Living; Wronged Husband Not Arrested

Pittsburg, Feb. 19.—The condition of Charles Raymond Pearce, who was shot in a love triangle at Saltsburg Extension, was reported fair at the Allegheny General hospital today. Physicians refuse, however, to say whether Pearce will recover.

Pearce was alleged to have been shot five times by George Ferguson in the latter's home at Saltsburg. No move has yet been made for the arrest of Ferguson, who, it is alleged, found Pearce with his wife.

Erie St. Vincent's Hospital Will Get State Appropriation

Philadelphia, Feb. 19.—The State Supreme Court in an opinion filed today decided that the St. Vincent's hospital of Erie, Pa., is entitled to the state's appropriation made to it and held that the hospital is not the sectarian institution alleged by the complainant and does not fall in that class of sectarian charities, which under the constitution are not entitled to state appropriations as decided by Chief Justice Von Moschizher some years ago in a celebrated opinion.

PENNSYLVANIA PRODUCES OVER SIX BILLION DOLLARS WORTH OF PRODUCTS IN INDUSTRIAL PLANTS DURING 1921

Million and a Quarter Persons Employed; This County Shows Production of Thirty-One Millions.

FULTON LOWEST FIGURE

Harrisburg, Pa., Feb. 19.—Pennsylvania's productive industrial plant numbering 25,426 in 1921 turned out products having a value of \$6,121,875,000, according to the results of studies of reports announced today by Secretary of Internal Affairs James F. Woodward. The compilations were made by the Bureau of Statistics and information of the Pennsylvania Department of Internal Affairs and they show that of the total value of the State's industrial products, products worth \$3,629,909,500, or practically one-half of the total valuation, were shipped to points outside of Pennsylvania for distribution and consumption.

The total figures include new production only so that activities in the repair shops of public service companies, including railroads, are not used. The construction of new engines, cars, etc., is included in the totals. Repair shop items are shown in another departmental report dealing with public service industrial activities.

Philadelphia led all of the other counties of the State in 1921 with a total production valuation of \$1,468,256,900 while Allegheny County was second with \$1,170,810,800. Luzerne County was third with \$804,462,800; Northampton, fourth with \$280,464,100 and Delaware County

with \$197,918,500. Fulton County was at the bottom of the ladder with a production valuation of \$212,300 and Pike was next with \$377,500.

Pennsylvania's industrial establishments gave employment during the year to 1,270,599 persons of whom 867,334 were Americans white, 38,592 were Americans colored and 364,733 were foreigners. Of the total employees 1,055,024 were males and 215,575 were females. In all classes of industry in the State there were 6,178 minor boys and 8,616 minor girls employed.

The States' industrial payroll for the year for its vast army of workers was \$1,451,271,500 and of this amount \$1,315,990,800 was paid to male employees and \$135,280,700 was paid to female workers. An interesting feature of the wage study is that in certain counties such as those in the oil and lumber regions the labor cost is considerably less than in the coal, metal and textile producing counties, the character of the production governing the labor costs in all cases.

The capital invested in the industrial establishments of the State amounted to \$4,920,936,300. Practically one-third of Pennsylvania's production valuation during 1921 was represented by metals and metal products which were worth \$2,171,677,200. Textiles and textile products stood second with a value of \$844,987,000 and the products of mines and quarries held third position with a value of \$811,513,000. Other industrial classes had values

(Continued on Page Six)

CRIMINAL COURT BEGINSTODAY WITH SMALL LIST

Girl From DuBois Will Be Tried For Stealing 3 Cucumber Pickles; Balance Booze Cases.

SENTENCE FORGER

February criminal court opened this morning with Judge Bell presiding and a list of nineteen cases scheduled for trial. However when the list was called so many of the cases were settled or continued that it looked for a time as though the court for the week would be shot to pieces.

The morning session was devoted to hearing motions, petitions, etc., after which the list of jurors were called and a number of jurors excused from jury duty for the week.

The criminal list for next week is made up of twenty-five cases, twenty of which are for violation of the liquor law.

You simply can't keep those DuBois people out of Court, and while the list from DuBois only totals three cases—the smallest number in the knowledge of anybody now about the Court House—in one of these cases a young woman is being prosecuted for the larceny of three cucumber pickles.

Sentences Handed Out

Before taking up the trial of cases Judge Bell handed out sentences in the following cases. Daniel Caldwell and W. L. Smith, who were arrested at Coalport on Dec. 24th, 1922, for each packing a quart of moonshine on their hips, were fined \$100 and the costs and further sentence deferred.

Tony Marco, of Clearfield, who entered a plea of guilty to the sale of a pint or two to the State Police who operated here some time ago, was given \$100 fine and costs and four months in jail, with the privilege of a parole after two months.

Ira Passmore, of Clearfield, who entered a plea of guilty of forging the name of Frank Shaw to a check for \$10 which was cashed by C. M. Shurgarts at his West Side restaurant, acknowledged having been sentenced on two or three occasions for similar offenses, and was sentenced to pay \$100 fine and costs and undergo imprisonment in the Western Penitentiary for not more than five nor less than four years.

CONCERT OF PURE AMERICAN MUSIC GREATLY ENJOYED

A crowded auditorium greeted Central Pennsylvania's best band yesterday afternoon when the curtain rose at the High School for the patriotic concert given by the American Legion Band of Clearfield. The band never looked prettier and snappier than it did yesterday afternoon and the music they gave so freely and generously to the assembled Clearfieldians was of a very high order. As announced the program was entirely of American composers and the concert was tremendously enjoyed by everybody, particularly by that large number of people who want to hear tunes that the know and can hum and whistle to their heart's content. The solo work of Harry P. Bridge, Jr., and the barytone player was excellent, lending an artistic finish to the otherwise familiar melodies while the Battery Park March and the American Patrol numbers were thunderously encored.

The audience joined right in the spirit of the occasion by jumping right into the community singing and a very enjoyable quarter hour was spent in this manner. Senator William I. Betts contributed much to the enjoyment of the afternoon and the value of the occasion with one of those whip cracking patriotic addresses which he is so capable of making. Altogether it was a wonderful affair. (Continued on Page 3)

KARTHAUS "SHINER" CAUGHT WITH GOODS IN SATURDAY RAID

Detective Snyder and State Police Nab Two Men and Get 3 Stills and Lots of Hootch.

HELD FOR COURT

County Detective Snyder, aided by State Troopers Barker and Pierce, cleaned up the source of a considerable supply of moonshine in the Karthaus community Saturday. For some time complaints have been coming from the downriver section regarding the quantity of booze that was being splashed about that section.

Detective Snyder after careful investigation located the source of a large part of the wet stuff in the mountain cabin of Victor Chisko, who lived back on the hills a short distance from the town. When he had his plans all laid the county detective called the state troopers to his assistance and a raid was made on Victor's shack Saturday.

The chief moonshiner was caught in the act, while Joe Gonaversky, his alleged agent, who served the trade and disposed of Chisko's product to his regular customers, was also taken in to custody.

After being arrested Chisko entered bail in the sum of \$1,000, but Gonaversky was unable to do so and he was brought up to jail yesterday.

In addition to the moonshiner and his bootlegger, three stills, 75 gallons of mash and four gallons of manufactured liquor were taken in the raid.

TURKS FAVOR WAR IS REPORT ON EVE OF ANGORA MEET

Constantinople, Feb. 19.—Turkish Nationalist sentiment favoring war is reported running high at Angora where the Ottoman assembly today are to receive the report of Ismet Pasha on the Lausanne conference. The Turkish foreign minister left for the capital carrying a note from Great Britain urging that the Kemalists sign the peace treaty Ismet rejected at the Lausanne conference.

General Cronkhite

This is a recent photo of Maj.-Gen. Adelbert Cronkhite who may be the center of Congressional investigation as a result of a retirement order. According to his friends, General Cronkhite's retirement is the result of his efforts to bring alleged slanders of his son to justice.

SAP'S BEGINNING TO RUN!

W. C. T. U. EXECUTIVE MEETING

A representative executive meeting of the W. C. T. U. was held Friday last in St. John's Lutheran church. Mrs. Miles Wrigley and Mrs. W. C. Fugate of Mahaffey, Mrs. Lillian Trezise, Mrs. G. C. Sink, Mrs. Clara Beigitt of DuBois, Mrs. Tozer of LaJole, Mrs. Elizabeth Gates, Mrs. Mary McNaull, Mrs. Margaret Dunsmore and Mrs. Miles Porter of Curwensville, and Mrs. John Thomas of Osceola were present. The local members present were Mrs. Runk, Mrs. Bell, Mrs. Chorpennig and Miss Chorpennig.

The prominent subject of discussion was "Law Enforcement," which was also the subject of the recent legislative conference held in Harrisburg at the call of the state officers of the W. C. T. U. Mrs. Ella M. George presided at the meetings, the first of which was a banquet at the Penn-Harris hotel. The speakers were Hon. C. J. Goodnough, speaker of the House of Representatives; Senator Plymouth W. Snyder, who presented the enforcement bill in the Senate; Miss Gertrude McKinney, member of the House of Representatives; Miss Florence Albert, state president Federated Clubs; Miss Amanda Landes, vice president of the state W. C. T. U.; and Mrs. Leah Cobb Marion, treasurer of Pennsylvania W. C. T. U., whose subject, "Pinchot, Pennsylvania's Dry Cleaner," which was handled in her usual admirable and witty manner. The conference was honored with an address by Governor Pinchot and a visit from Mrs. Pinchot, both of which were enthusiastically received.

The general subject, "Law Enforcement," was presented from various angles by Major J. O. Campbell, deputy attorney general; Senator Barr, Dr. Homer W. Tope, Michael J. Fanning, Rev. W. B. Forney, Rev. Robert Bagnell, D. D., and Major Lynn G. Adams, superintendent of the State Police Department, whose straightforward outline of the duties of citizens and police was the outstanding feature of the conference.

Miss Anna A. Gordon, national president of the W. C. T. U., lent the inspiration of her presence to the occasion, and gave several helpful addresses. State W. C. T. U. workers honored with a place on this program were Mrs. M. M. Steese of Dauphin county, and Miss LaRue M. Chorpennig of Clearfield county, who was the local representative and reported the conference to the executive meeting.

Important business was transacted and the executive sessions were helpful and enthusiastic and the lunch and dinner served by the local union were much enjoyed, a vote of thanks being tendered them by those present.

STOP ITCHING ECZEMA

Penetrating, Antiseptic Zemo Will Help You

Never mind how often you have tried and failed, you can stop burning, itching Eczema quickly by applying Zemo furnished by any druggist for 35c. Extra large bottle, \$1.00. Healing begins the moment Zemo is applied. In a short time usually every trace of Eczema, Tetter, Pimples, Rash, Blackheads and similar skin diseases will be removed. For clearing the skin and making it vigorously healthy, always use Zemo, the penetrating, antiseptic liquid. When others fail it is the one dependable treatment for skin troubles of all kinds.

SULPHUR-VAPOR BATHS

Fine for that cold and gripple. Why go to Hot Springs when the Dr. Kruse System in your home town will give you the same results. For rheumatism, Lumbago, neuritis, kidneys, high blood pressure, catarrh, etc. They absolutely take your aches and pains away. Give it a trial and be convinced. Call today.

H. & C. Phone 359-M.

Mr. and Mrs. Emmett Buchannan, have returned from Philadelphia where they attended the funeral of the latter's aunt, Mrs. Margaret Cartwright, formerly of this place.

Nathan Kohut, Clarion agent for the B. R. & P. Ry. Co., with headquarters at Pottsville, was a business visitor to Clearfield today.

Mrs. A. W. Lye, Jr., was advised by wire on Saturday last of the death that morning at his home in Lexington, Ky., of her cousin, Madison L. Worth.

ODDS AND ENDS AND THINGS

By J. D. C.

The total cost of governing the people of the United States is nearly \$8,500,000,000 a year, according to a computation made for The Budget, the monthly publication of the national budget committee, by William P. Helm, Jr., its Washington correspondent.

On the basis of 40,000,000 workers whose gross income is \$60,000,000,000 a year, this means that the burden of government on every man and woman in business or professional life, including the 2,000,000 persons who are on the public pay-rolls in nation, states, cities, countries and other municipalities, would be about \$220 annually. If they should contribute labor instead of dollars, every worker would give as his or her share more than seven weeks' labor every year. Every week every one of us would work approximately one day without pay as our contribution to the cost of preserving life, liberty and the pursuit of happiness under our intricate and far-flung system of government.

Mr. Helm bases his estimates upon the public pay-rolls as available for the year 1921. These show the number of public servants in the United States to be not less than 2,000,000. In other words we have working for us today in civil life and in the national defense, 1,000,000 employees to the number of all the military forces we sent into and during the World war.

In the U. S. there are more than 50,000 towns and city firemen, 82,000 policemen, 115,000 guards, watchmen and doorknockers, 107,000 common laborers, 12,000 detectives and 10,000 sheriffs, 54,000 city and county inspectors of various kinds, 122,000 postmasters, 225,000 sailors, soldiers and marines, 2,300 life-savers, and so on, down to make doctors and star-gazers.

The census of 1920 gives the total number of workers within the United States as 41,612,215. One out of every twenty is, therefore, on the public pay-roll. If the railroads of the coun-

try were to marshal their forces, they would fail to match the army of men and women holding remunerative government positions. All the coal mines and all the automobile plants in the country combined fall short of the man-power of government. All the hired men on all the farms in the United States barely equal in number our public pay roll attacks.

As to the cost of maintaining the various forms of governmental activity, Mr. Helm gives the following summary for the calendar year 1921:

Federal government	\$4,666,671,594
48 state governments	1,088,540,652
253 municipal governments of over 30,000 inhabitants	1,638,296,652
Municipal governments of from 2,500 to 30,000	431,287,052
Municipal governments in 12,905 communities under 2,500	123,147,637
County governments in the 48 states	592,035,972

Total cost of American government in 1921 \$8,500,911,537

"By this method of computation," he writes, "the total cost of American government in 1921 was within hailing distance of \$8,500,000,000. That sum is beyond human imagination; no man can visualize it in bulk or power any more than he can conceive of space. But there are comparisons through which a sense of the magnitude of this sum can readily be obtained.

"Assume, for instance, that all this money had to be paid out in gold. If we were to ferret out all the gold above ground in the world today the sum would be but little more than sufficient for one year's payments.

"The national income of the United States recently has been estimated by leading economists at from \$60,000,000,000 to \$65,000,000,000 annually. The government's own investigation dates so far back as to be of little value, but lends some credence to these estimates. Assuming that 60,000,000,000 is approximately correct, the cost of government is about 14 per cent—more than one-eighth—of our national income.

"We have 40,000,000 workers, or thereabouts. If the cost of govern-

ment were to be equally distributed among them, the burden on every man and woman in business or professional life, including the 2,000,000 government workers, would be about \$220 a year. On the basis of five persons to one family, the cost of government is about \$400 per family per year."

Twenty-Two Dead

(Continued From Page One.)

In addition a few charred bones have been found, which were believed to be all that was left of those unaccounted for.

Only two of the eighteen bodies recovered have been identified.

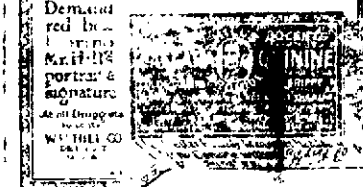

The 92 patients imprisoned in Ward 42 on the third floor, where the fire took its toll, were described by Dr. Heyman as "violent, homicidally-inclined men," anyone of whom might have turned murderously on his rescuer.

But so coolly did the attendants work that in only a half dozen cases at the most were there incidents of struggle against or attacks on attendants.

While the rescue work was being carried forth the flames burst through the roof of the building and lighted up the entire island. Screams of the terrified patients nearest the flames roused the entire population of the madman isle and in a twinkling every window framed a maniac face.

World's Standard Cold Remedy

In disagreeable weather always keep this handy standard cold remedy which cures for two to three days. Safe and dependable. No bad effects, no loss of appetite.

WARMER LATTER PART OF THE WEEK
Washington, D. S. Feb. 17, 1922—Weather outlook for period Monday, Feb. 19 to Saturday, Feb. 24, 1923, inclusive: Generally fair and unseasonably cold first part of week and unsettled and warmer, with rain or snow latter part.

"The House of Quality"

BRINGING UP FATHER—TEN YEARS AGO

by McManus

**Save from
\$52 to \$78
a year**

You will be amazed to see how the use of "Bull" Durham will cut down the cost of your smoking.

How is it possible to give you quality at the low cost of 10 cents for 50 cigarettes?

Here's one reason: The government tax alone on 50 machine-made cigarettes is 15 cents—**5 CENTS MORE THAN THE COST OF 50 "BULL" DURHAM CIGARETTES TO YOU!**

The average smoker saves \$1 to \$1.50 a week by "rolling his own" from "Bull"—or from \$52 to \$78 a year. This makes quite a Christmas fund—or pays for a fine trip.

50

★ **GOOD**

CIGARETTES

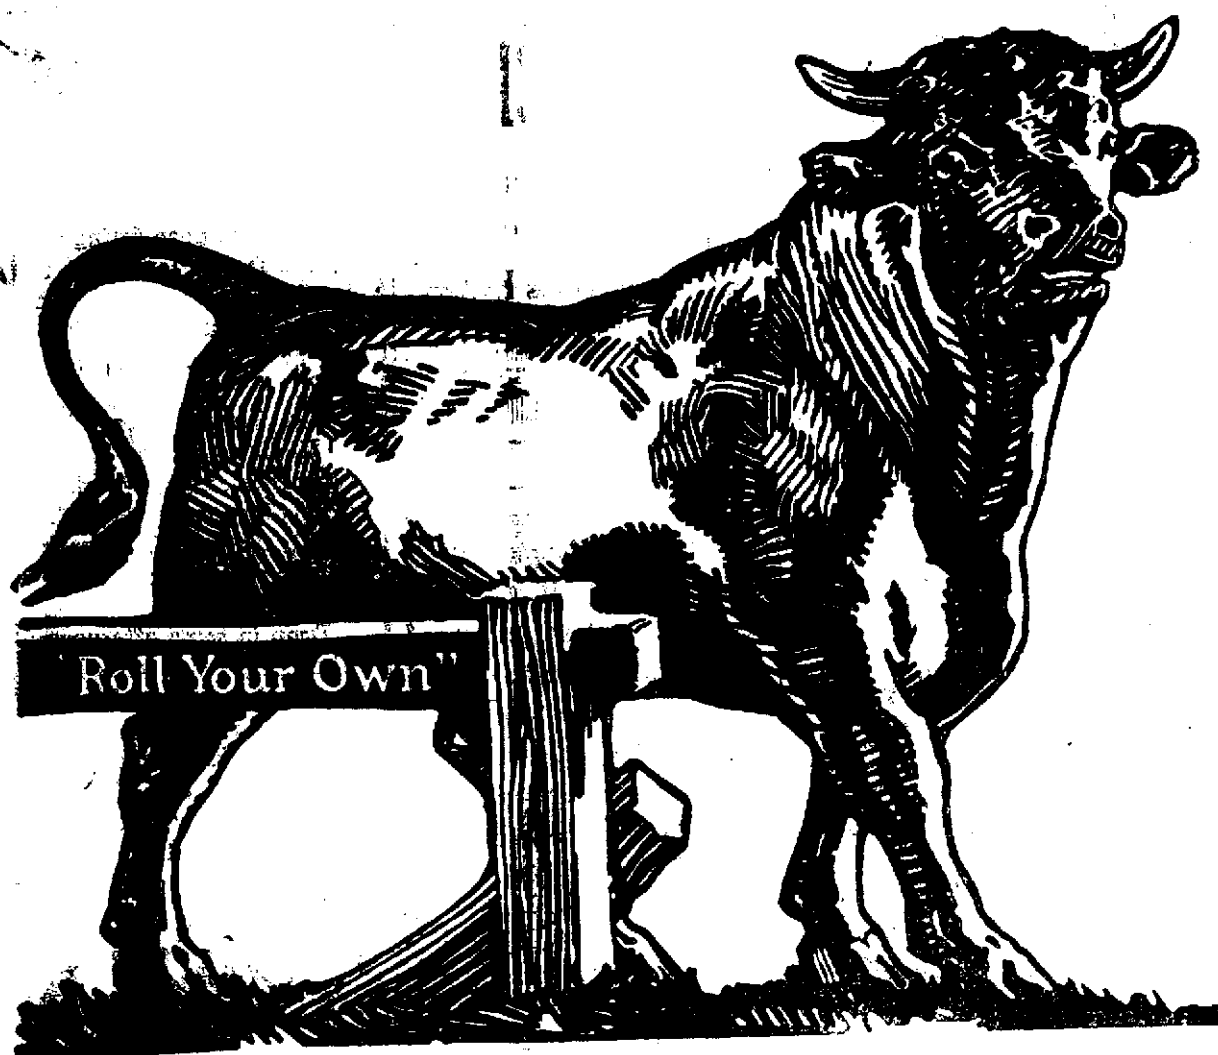

10¢

GENUINE

"BULL"

DURHAM

TOBACCO

★ What a place "Bull" Durham holds in the hearts of Americans! Can you think of any other brand that has been the favorite of three generations?

Look at its history. From the Civil War to the Great War "Bull" Durham has been the American's greatest standby. Sixty years.

There really is no smoke in the world so altogether satisfactory.

A "Bull" smoker never switches. You can't interest him in any new experiments. He carries his preference wherever he goes.

This is because the special flavor and aroma of "Bull" Durham make a cigarette that can not be duplicated.

Find out. You will never know how good a cigarette can really be until you roll your own out of "Bull".

If all the fellows mentioned for public office this year listen to the advice of friends the ballot for the September primary is going to look like a billboard and the voter will have to roller skate from one section of the ballot to another to mark it.

Rarely a day passes now that someone does not edge up to several fellows and sound them out as to his particular friend. And, incidentally, there are a lot of good suggestions being made, if the men mentioned can only be persuaded to go into the primary to win.

It looks like a free-for-all, with holds "catch as catch can" and the timorous fellow had better get scared out at the start. It is also quite as apparent that the fellow who can see the most voters is the fellow who stands the best chance.

It is no time for a weak sister.

This long wintry spell of weather has temporarily put the over-the-counter business on the toboggan. Most any fellow you meet will admit that his winter underwear, socks, shoes and other haberdashery is about "all in" but hanged if he is going to buy any more until the clearance sales start. And we presume the ladies are in about the same frame of mind about clothes.

Let Old Sol peak around the corner though for about six days in succession and every last mother's son of us, and the daughters too, are going to highball for the stores.

It's a wise merchant that will have his clearance sales early this year and a plentiful supply of spring goods in the basement ready to be put on the shelves, for there is nothing to hold up the buyer's parade this season.

Some folks are awfully hard to please. The Public Ledger and the New York World would have been the first to condemn Warren G. Harding had he resorted to big stick methods to force the refunding plan and ship subsidy down the throats of the Senate. Had Warren G. Harding been strong enough as a leader to compel the Senate to put the stamp of approval in both these measures they would have been the first to label him the "boss" and the first to condemn the Senators for being so led. Now that the Senate shows some signs of exercising their own minds and doing as they please individually, these two journals adopt the other tact and point out the weakness of Warren G. Harding as a leader. Obviously Warren G. Harding is doomed if he does and doomed if he doesn't.

The vote on the refunding plan indicated two things, however, regardless of what such journals as the Ledger and the World say. First, that the refunding plan had sufficient merit to pass overwhelmingly and to command the support of twenty-four Democratic Senators. Second, that leaders and bosses are not what make majorities for administration issues when those issues are sound.

Promptness and Efficiency

are important factors here. We appreciate their vital force in the transaction of general banking business and to meet the requirements of business men, firms and individuals we have installed every modern facility.

Your account is respectfully solicited.

POULTRY

STRIVING FOR WINTER EGGS

Room, Warmth, Ventilation and Light, Are Among Most Essential Factors With Hens.

The poultry house originally designed several years ago by the poultry department of the Missouri College of Agriculture, and now in general use in many states and in the Dominion of Canada, allows two and two-thirds square feet of floor space for each hen. The nest is provided for every six hens, and enough roosts are supplied to give each hen a reserved seat eight inches apart.

This extremely practical poultry house has a number of special features which have proved helpful in getting high winter production.

Light is admitted from all directions by means of six-light glass windows, two in front, two in each side and one in the rear. There are, therefore, no dark corners in this house. Since light comes in from all sides the hens scratch in all directions and the litter never piles up.

A 30-inch wire-covered opening, one foot from the floor and extending from each side of the door the entire width of the front, gives the Missouri poultry house good ventilation. During the winter the success of ventilation of this type depends upon having the east, west, and north sides and the roof entirely airtight so that wind will drive into the house only a short distance and never back to the roosts which are on the north side. There is a gradual movement of the air from the inside out, thus insuring an abundance of ventilation without drafts.

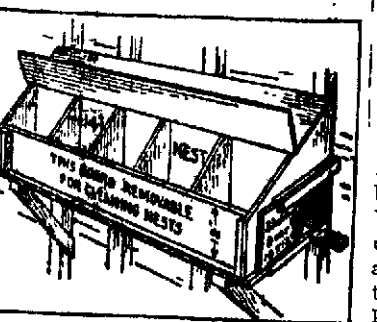

The straw loft is another distinctive feature. Jolts or collar beams are placed in the house just high enough to afford head room. In order to prevent the birds from roosting on these, they are covered with inch boards four inches wide, placed two inches apart. This forms a loft which is filled with straw. The straw acts as a sort of sponge by absorbing both dampness and heat and helps to keep the house drier and warmer in winter and cooler in summer.

Using this poultry house, 200 demonstration farm flocks average in 37 Missouri counties last year got 125 eggs per hen and a profit of \$2.88 per hen. Extension Circular 101, sent free by the Missouri Agricultural Extension Service, Columbia, Mo., gives plans, lumber bill and directions to enable anyone to build a poultry house of this type.

PRACTICAL NEST FOR HENS

Built of Good Quality of Lumber They Can Be Made Any Length Desired by Poultryman.

The nests shown in the accompanying picture are very practical. They are built of a good quality of lumber planned on both sides and can be made of any length desired. Individual nests are 14 inches square, 12 inches high in front and the front board is removable for cleaning.

A Good Type of Nest.

movable for cleaning. At the rear of the nest is a 1 by 4 inch board to hold the nest material in place.

The hens enter and leave through a door at one end which may be closed at night to keep sitting hens from staying on the nests. Flaps alfalfa hay is a much better nesting material than straw because the hollow stems of the latter make ideal breeding places for mites.

WATCH FOR ROUP SYMPTOMS

Listening in Hen House at Night for Deep Breathing or Rattle in Throat of Fowls.

Go into the hen house at night and listen diligently for a short while. It is a good way to detect a cold or the first symptoms of roup in the flock. Birds breathing hard or rattling in their throat should be taken off the roosts and carefully examined, and, if affected in any way, removed to a coop or apartment away from the rest of the flock.

WINTER ATTENTION TO HENS

Fowls Must Be Fed to Grow New Coat of Feathers and Regain Their Lost Vitality.

Market all hens except those known to be good layers. During the winter months hens must be fed so as to grow their new coat of feathers, regain vitality lost through heavy egg production, put on some flesh and be ready to produce eggs of strong vitality in time for the hatching season.

Clearfield Scrubs Had a Battle

(Continued from Page One)

from mid-floor tied the score, 30 each. During the extra five minute period neither five could register a basket from the floor, Mitchelltree rapping two perfect tosses through the hoop from the fifteen-foot mark, while Mason annexed but one point from two like attempts, the extra period ending 32 to 31 in the locals' favor.

Mt. Union Team Clever.

The visitors, altho lacking in consistent team work, displayed flashes of real form at various stages of the game. They were at their best when working tip-off plays, which would have resulted in many more scores had Mt. Union's passers varied their running formations under the basket.

Center Mason of M. U. was the scoring ace of the game. Without this husky lad, the refractory town tossers would have tallied few points, as the locals' defense made the visitors constantly resort to long shots. Mason's long range shooting and foul tosses added 25 points to his teammates' 6 points.

Captain Klinger and Appleby, both forwards, played creditably for the losers.

The line-up:

Clearfield Reserves Mt. Union High
P. Barrie F Klinger (c)
Wilson F Appleby
Boyer C Mason
K. Barrie G Wharton
Mitchelltree(c) G Sellers
Substitutions.—Maurer for P. Barrie; Gerlock for Wharton.

Baskets: Wilson 4, Mitchelltree 2, P. Barrie 1, Maurer 1, Boyce 1, K. Barrie 1; Mason 7, Appleby 2, Klinger 1. Fouls: Mitch 10 out of 18, K. Barrie 2 out of 7; Mason 11 out of 19.

Dope on Red and Black Reserves.

Few schools can boast of a scrub team of the calibre of C. H. S.'s 1922 reserves, who to date have defeated all their opponents. Against Mount Union, although each scrub was smaller than his opponent, they out-fought and actually out-passed the visiting players. Instead of individualism which the Mount Union team had "nothing else but," Coach Reed's comers played a five-man game. Six men played for C. H. S. and every man scored at least one field goal. Swift, accurate passing and a defense that was instantly convertible into a winding up the floor offensive, were features of the second stringers' play.

Captain Mitchelltree, playing a fine all around game, was the fastest man on the floor, and when coupled with a steady lad of Ken Barrie's type, form a brace of guards hard to beat. Bill Boyce at center played a good defensive game and fed the local forwards well. Boyce, although a newcomer, is a fighter, and is a reliable understudy for Nick Brown. Bob Wilson and Pete Barrie at forward worked their passing to perfection and displayed combination form not unlike the old Neff and Ammerman passing game, while Ray Maurer, playing his first game, handled himself in a manner that stamps him as one of the leading younger players.

N. W. P. I. A. L. One of the Fastest. The basketball league of which Clearfield is a member is considered by referees to be on a par with the Central Pennsylvania League, which is composed of such teams as Harrisburg Tech, Williamsport, Reading, York, Lebanon, Steelton, and others of equal standing. Inasmuch as the above teams are considered the best in their section, the N. W. P. I. A. League is undoubtedly made up of the strongest scholastic fives in Western Pennsylvania.

The Clearfield second team has already defeated some of the best teams in the Mountain League, in fact the three leading teams in that league have fallen before the local second stringers' prowess. Philipsburg, playing on their home court, were outclassed 38 to 18 by a strictly organized string combination from C. H. S. Houtzdale Hi lost by a score of 52 to 30 and Mt. Union took the small end of a 32 to 31 score. Although Philipsburg is now leading the league, Mount Union should win out in the end, as the main-liners displayed far more stuff than either of the other two Mountain League fives did when playing the local reserves.

DuBois and Brookville have been winning from the best out in the Oil City district, so it is safe to say that the team that finishes at the top of the N. W. P. I. A. League can be classed with the foremost high school outfits in this state.

Referee Wagner, who officiated at the C. H. S.-Mt. Union contest, said, after the game: "Clearfield's second team is one of the fastest high school outfits I have seen this season, and should be able to defeat Lock Haven High's varsity, who were outclassed at Lock Haven by the Mount Union Five."

It should also be of interest to know that the Mt. Union squad is credited with two victories out of three starts with the fast Altoona dribblers.

While not practical, it would have been possible for Clearfield High to have maintained teams in two leagues

LEWISTOWN, PA.

CLEARFIELD, PA.

LETTER TO THE EDITOR—

Mr. G. Albert Stewart,
Managing Editor,
The Clearfield Progress,
Clearfield, Penna.

Dear Sir:—

In an editorial of the 15th of this month, I note you quote with disapprobation, for you style the declaration "another fling," the curt distributive of Mr. Thomas A. Edison on college education. Because of my interest in young people for every one of whom I covet the equipment of higher education and my estimate and dependence upon the best training, I want to applaud your stricture of the "fling" of Mr. Edison on education, a characteristic attitude of a few successful "self-made men."

Over against his superficial criticism—

"College men don't know what is going on. They are too dense," etc.

may I ask you to give publicity to the recent official report prepared for the United States Bureau of Education from the investigation of that careful statistician, Professor A. Caswell Ellis, who finds that

"Less than one per cent. of Americans are college graduates, yet this less than one per cent. has furnished:

55% of our Presidents;
36% of the members of Congress;
47% of the Speakers of the House;
54% of the Vice-Presidents;
62% of the Secretaries of State;
50% of the Secretaries of the Treasury;

67% of the Attorneys General;
69% of the Justices of the Supreme Court."

I ask you to place in bold type this additional finding by Professor Ellis—"The College man's chance for eminence is 870 to one as against the non-college man."

Note the significance of "eminence," which contains the factors of service rather than success alone.

Respectfully,
HORACE LINCOLN JACOBS.

Trinity Church Study,
Clearfield, Pa., Feb. 17, 1923.

This winter. The scrubs, if entered in the Mountain League, would have made an excellent showing, with the regulars fighting their way to undisputed possession of first place in the North Western Pennsylvania League at the same time.

SCHOOL BOARD PICKS OUR MILK

Last week the school authorities, in conjunction with the better health authorities, began to give the kiddies that are underweight in the schools, milk twice a day.

The school board elected our milk simply because it contains all the nutriment that milk could contain and has been put through the pasteurization process, eliminating all possible chance of contagion.

That's a mighty good recommendation for our milk.

Mountain Haze Comes As A New Color for Spring Wear

By HEDDA HOY

Fashion Editor of the United Press, New York, N. Y., Feb. 19.—This time of the year styles are almost at a complete standstill. The winter styles have exhausted their efforts for new innovations and the spring styles are still undergoing changes before being finally announced.

Certain style tendencies, however, may be glimpsed at the advanced style shows which will undoubtedly rule during the coming season. The silhouette will evidently remain slender with dressy gowns showing a preference for drapes rather than for side panels. The dipped hemline is conspicuous by its absence in the new spring models.

A New Shade.

"Mountain haze," a new shade of orchid which verges on the violet tones is considered the chosen color of the season. It will probably be more popular than the periwinkle blue of last season, as it is a softer shade and more easily worn. It is especially beautiful for the dinner gown of soft chiffon or georgette and is at its best when beaded in self-colored beads. There are a great many displays of "mountain haze" in the Fifth Avenue windows just now, ranging from dinner and dance gowns to lingerie and tweed sport suits. Used as a lingerie color, it is combined with lace and truly reminds one of "lavender and old lace." How lovely a bridal set of chemise, step-ins, nightgown and a tulle slip would be made up in this lovely shade!

Yellow will be one of the sports colors and it is extremely popular just now at Palm Beach.

Blouses cut on jacket lines are made of printed materials with the design of the material outlined in beads. This is a new and simple way of trans-

forming an inexpensive printed blouse into an exquisite one; steel beads are being used to outline many of the Paisley-print blouses and beads of brilliant hue are used on the more colorful printed materials.

The reaction against black is noticed even among the accessories, where bright colored buttons are again in vogue, after many years of absence. Buttons which are crudely vivid are used to add splashes of color rather than to harmonize with the gown. Old-fashioned porcelain buttons with quaint flower motifs have been revived. Hand-painted buttons of wood are carved out in designs so that the color of the gown shows through them.

The short throat necklace and the brooch are also revived after these many years. It is said that the return of the Bertha collar has brought them back into vogue. Short throat chains which fit the neck are becoming extremely popular. Amber beads are said to be the favorites of the moment—the kind that grandma used to wear tightly around her throat to ward off goiter. Next to amber, pearl beads in short lengths are favored. As for brooches, old-fashioned cameo and cut jets and carved ivories are considered quite the smartest thing for 1923.

Capes and cape-coats are popular among the new spring displays and will probably be as stylish this coming season as they were last spring.

Many of the younger misses are wearing almond green chiffon frocks for evening wear. These mid-winter frocks of green are invariably made with tight bodices and bouffant skirts and are untrimmied save for touches of silver or gold.

GIRL SCOUT NEWS

The last session of Mrs. Leo Lawhead's scouting course of six lessons will be held this evening when all the members of the course should be gathered up and settled. Mr. Reginald Stephens, now of Clearfield, who has had scouting experience at

its original home in England will be present to discuss work with the compass and scouting in general as he has known it. There can be no better sign of the very great appreciation which the staff has for the help given by Mrs. Lawhead than full attendance at this last meeting.

How To Keep Your Baby Well

A Weekly Talk to Mothers, Issued Through the Baby's Prophylactic Clinic, Henry Phipps Institute 7th & Lombard Streets, Philadelphia.

POOR APPETITES IN CHILDREN

One of the most curious and interesting things about some children who are apparently normal otherwise is their poor appetite. Appetite, or the desire for food, is such a fundamental instinct that its lack in what seems to be a healthy child is sometimes puzzling.

Of course a poor appetite is often associated with ill health. For this reason, if your child does not seem to enjoy his food, be sure to have him "gone over" by a reliable physician to exclude any possible physical causes, such as enlarged adenoids and tonsils, etc.

Should no physical cause be found, however, the child's poor appetite may be due to other factors. What you think is poor appetite may not be poor appetite at all.

Like adults, children vary in their needs and capacity for food. Some of them require a comparatively small quantity to maintain their proper growth rate, health and vigor. Others, on the other hand, need more. Therefore, you must find out just what capacity of your child is. Do not think that because Jamie Jones, who lives next door, eats twice as much that he is necessarily a healthier child.

Remember that a good appetite is dependent upon the contractions of an empty stomach's wall. If food is

constantly present in the stomach, the walls do not contract as hard as when the stomach is empty. Consequently the desire for food does not occur. Because constipation prevents proper contraction of the stomach, it may also cause poor appetite.

City children more often than country children show little desire for food. To a large measure, this is due to their highly artificial methods of living. Children's natural inclination to romp can not be gratified as readily in the congested city streets or in the over-furnished rooms of the city dwelling. Therefore, they can not very well do the natural things that children love to do. They are constantly being watched and forever "don'ted" until their desires and inclinations are stunted.

These continuous assaults on their nervous systems can but result in nervousness and poor appetite. If you will but permit your children to romp and play unmolested in a room free from all articles that can be broken or damaged, or better still, outdoors in the fresh air and sunshine you will find that their appetites will be improved.

NEW POSTMASTER FOR LOCK HAVEN

Conceal a Kiss has recommended Geo. B. Stephenson, Esq., for postmaster at Lock Haven to succeed Paul O. Bruns, who has held the position for the past nine years.

Night Coughs quickly stopped

Here's a PRESCRIPTION Safe & Sure for Young & Old

Tom Sims SAYS---

Turks have made marriage compulsory. Another Turkish atrocity. In Italy, if a man doesn't vote they give him medicine. In America they should give it to some who do. It took five years to bore a tunnel under the Catskills. The next biggest bore is the man who wants to borrow a dollar. It is so hard to make your auto run on cold morning and so hard to make your nose stop. There is so much weather it all can't be good. Five Frenchmen will attempt a flight around the world. Even if they succeed it will not get them any where. Put confidence in too many strangers and you soon won't have any. Our language tickles. Being down in the mouth gets one up in the air. Trim ankles trim men. "Hello, how is your wife today?" is a greeting now. In a few years this greeting may be "Hello, who is your wife today?" It is getting so that when a boot-legger is arrested he raises Cain if it makes him get home late for supper. It is cheaper to move than to keep up with the neighbors. It sounds easy to get married and make your home with the parents of the bride, but it isn't. Men who think they know it all do not know all they think. Run around and you go in a circle.

Pennsylvania Produces Over Six Billion Dollars

(Continued From Page One.)

as follows: Building and contracting, \$252,793,300; chemicals and allied products, \$339,956,700; clay, glass and stone products, \$152,565,400; food and kindred products, \$499,815,700; leather and rubber goods, \$197,473,600; beverages, \$32,831,200; lumber and its manufacture, \$110,134,100; paper and printing industries, \$275,163,400; tobacco and its products, \$122,223,700; miscellaneous, \$270,740,700.

Industrial employees in the State as represented by the various industrial classes, were divided as follows:

Building and contracting, 72,399; chemicals and allied products, 25,097; clay, glass and stone products, 45,288; food and kindred products, 52,275; leather and rubber goods, 31,383; beverages, 5,036; lumber and its manufacture, 27,240; paper and printing industries, 45,520; textiles and textile products, 208,382; metals and metal products, 310,874; mines and quarries, 353,826; tobacco and its products, 37,592; miscellaneous, 53,787.

Male workers exceeded, in numbers, female employees in all of the industrial classes excepting textile and textile products and tobacco and its products. Of the 208,382 workers in the textile trades, 129,611 were females and 78,771 were male workers. In the tobacco plants of the State there were 37,592 employees.

TRINITY CHURCH EVENTS

Yesterday brought a decrease in attendance at every service. Big fall off of 94 to 300 in Sunday school record. But morning congregation was not proportionately affected. From Matt. 16; 13-18 and 1 Cor. 3-22, the pastor developed the "Value of Experience." At night, from Romans 7:24-25, the proposition of the "Reality of Victory" was worked out from several angles.

Trinity Church was represented at the mass men's meeting in Curwensville in the afternoon, following which Rev. H. L. Jacobs, acting for District Superintendent E. A. Pyles, conducted the fourth quarterly Conference of Curwensville charge.

Wednesday, 3 p. m. monthly meeting of Woman's Home Missionary Society. Mrs. Orcutt's group in charge of program and social hour: 7:30 mid week congregational meeting, followed by monthly meeting of Sunday School Board. Next Sunday a Bible School rally at 444 minimum attendance; afternoon, every member canvass for the Budget; state-

ment for Conference year, 1922-1923 placarded in the Church for every service next Sunday. Pastor called attention to Advocate subscriptions and Conference minutes, which will contain the memoir of the former pastor, Rev. W. W. Hartman, deceased. Reduced rates to conference in Harrisburg were announced for all persons going to Harrisburg March 12 to 21.

NEW DISCOVERY
the family cough cure

WHY RISK IT ANOTHER DAY?

That cold, draughty house that you "simply can't heat" is needlessly exposing your family to illness, not to speak of the discomfort they suffer. In a day we can convert it into one of abundant, cheerful warmth with delightfully agreeable, warm moist air circulating everywhere, putting even the coldest corners to rout. And the cost to you will be lower than next year if you will contract now for a—

ROUND OAK PIPELESS HEATING SYSTEM

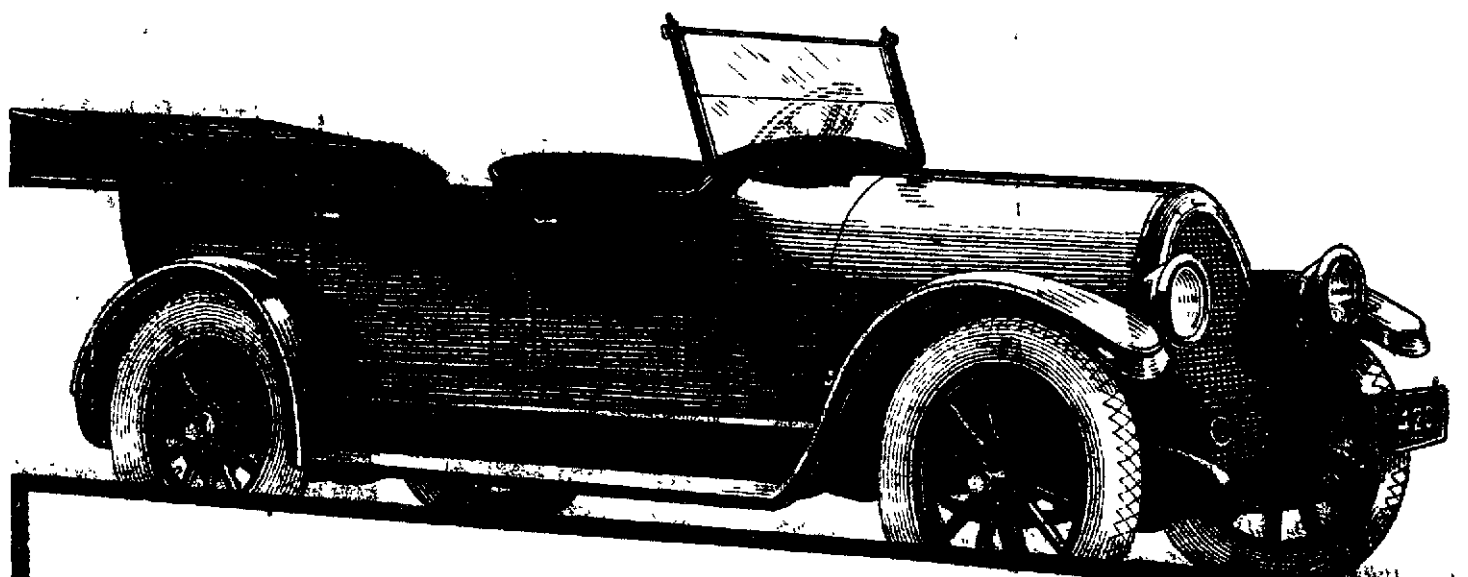

Service and quality considered, it is, without question, the greatest possible value.

When you divide the investment into the years of its usefulness, you sense why it is the wise choice.

NEWS OF OUR NEIGHBORS

CURWENSVILLE

A son was born to Mr. and Mrs. Harry Foust at the home of Mr. Foust's parents, Mr. and Mrs. David Sipes on the South Side last Friday.

Art Slutsky, of Altoona, spent Saturday with friends in town.

A sufficient number of signers or guarantors have been secured to insure the return of the Swarthmore Chautauque to Curwensville some time during the year. Undoubtedly good results were obtained from Chautauque's recent stay in town, and there was not much hesitancy about these same guarantors signing up for another whirl at this entertainment.

Mercantile Appraiser Miller was down from the highlands of the Grampian hills Saturday sizing up the business houses and leaving some blank sheets for the merchant to study over and fill out.

Yesterday closed the week's sessions of the re-dedicating and re-opening for general services the re-dedicated Methodist church. Eight ministers from different sections assisted Rev. Collins in work, and a strong reawakening of religious zeal was manifest at every gathering. The men's meeting Sunday afternoon drew a good attendance and was a religious, intellectual treat for all.

Fred McKenzie, who recently purchased a restaurant at Woodland, and is now in possession of the same, was a Curwensville visitor Saturday night. He came up from Pittsburgh where he had been serving as a cravener in the United States court for the past two weeks.

The body of Russell Frederick Bloom arrived in Curwensville on Saturday evening and was conveyed to the home of his parents, Mr. and Mrs. John H. Bloom, near the borough line. The funeral services were held at 2 o'clock Sunday afternoon, Rev. B. H. Conly, pastor of the Presbyterian church, officiating. Despite the cold and snowy weather, a large concourse of relatives and friends of the deceased followed the remains to Oak Hill cemetery. A firing squad from Joshua Earl Sipes Post, American Legion, accompanied the funeral cortege and fired a salute over the grave.

Mrs. Oliver Strunk, Bloomsburg avenue, who has been ill for a number of weeks, is not improving very rapidly, greatly to the distress of her many friends.

Mrs. Owen Jones returned home after visiting her son at Jersey Shore.

Born to Mr. and Mrs. Fred Jones at their home in Jersey Shore, Jan. 25, a daughter named Freda Jane. The little lady arrived on her father's birthday.

The Methodist people, after having spent over \$5,000.00 in repairing their church, are now busy holding special services in re-dedicating the church. Dr. Fletcher Biddle, of Mount Union, spoke Sunday morning, Dr. Jacobs, of Trinity church, Clearfield, spoke in the afternoon, and Rev. John Skillington, of Osceola, spoke in the evening. The repair work of the church is certainly a great credit to the congregation.

The new carpet alone cost over \$2,000.00. Mrs. Fred Dyer presented the church with a new set of hymn books; Charles Conrad presented a new pulpit hymn book; Mrs. Fred P. Robinson presented a new mat for the pulpit table, and Miss Mary Wolf presented new mats for the collection plates. Numerous gifts were received from friends out of town, who once lived in Curwensville. Miss Mary Swoope, during the week of dedication, has kept the pulpit well supplied with most beautiful flowers.

Miss Muriel Quigley, of Clearfield, visited her friend, Miss Helen Norris, over the week end.

The literary program at the High School Friday evening proved to be one of the best of the season. Mr. Fred P. Robinson surprised the audience with a number of entertaining exercises. Mr. Robinson is a real artist in his line and is kept busy by many calls from out of town. He has a number of original make-ups that are most pleasing and entertaining. His impersonations and dialogues have a technique about them seldom seen in professionals.

Nearly everybody in Curwensville is looking forward to next Friday night when the Senior Class of the High School will put on in the local theater building the comedy entitled "Mrs. Wiggins' Telegram."

The Seniors of the High School have just finished up their work on the High School annual. They are putting into this annual 60 half tone cuts and twelve etchings, making 78 pictures in all besides the buildings and several cuts from last year. They are going to sell the annual this year at 50 cents instead of one dollar as last year. They will publish 800 copies. They are now taking subscriptions. From what we learn it might be well, if you want an annual, to subscribe now, as the subscriptions will all be reserved.

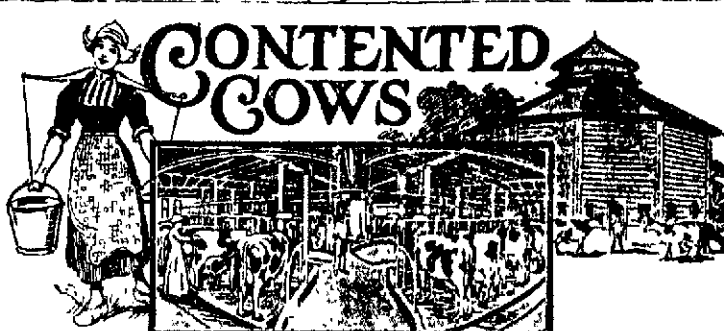

Prof. Norris has just completed his reports for the first semester of school. It is very voluminous, so much so that he had it bound at the book binder's office. It contains the results of the examinations, grade of work done by each teacher, a complete book report and about fifty pages of a report on Education Week. Any one desiring to see this report may have the privilege by visiting the school, where it is kept.

Mr. and Mrs. J. B. Novling are spending some time with Mrs. J. G. Clune at Jamaica, L. I.

CONTENTED COWS

(National Crop Improvement Service)
"A DARK barn is almost always a dirty barn," says Dr. C. H. Eckles, of Missouri.

A self-respecting cow, the kind that is capable of producing a clean, wholesome food at a profit to the farmer, can't be expected to do it in a dark, damp, dirty barn, with no animal comforts and less sanitation. The farmer himself would reflect the dreary atmosphere of the place, and fall short of his own possibilities. Change the dairy eyesore to a well arranged barn, with ample light, good ventilation, modern equipment, running water, and centrally located feed bins, etc., and the cow perks up and starts on the upgrade of profitable production, and the dairyman gets his work done better in less time, is the statement of Dennis A. Meridian of the American Steel and Wire Co. The latter carrier makes it easy to keep the stalls clean, and the easily reached feed and hay chutes, and the running water, make former drudgery merely straightforward routine.

HUNTING LICENSES TO COST \$1.50 NEXT YEAR IF PRESENT PLANS GO

Harrisburg, Feb. 19 (U. P.)—The proposed increase in the cost of the hunter's license from \$1.00 to \$1.50 included in the new game code now being considered before the Game Committee of the House of Representatives will permit the work of the Game Commission to continue on the same scale as in the past, according to a statement made public by the Commission today.

At its last annual meeting the

Game Commission in discussing the draft of the game code voted to go on record as approving the proposed increase if it were made a part of the code as submitted to the legislature. The increase was said to have been recommended by a number of sportsmen's organizations of the state.

The statement issued today offered the following suggestions favoring the proposed increase.

1. Unless more funds are available the Commission cannot continue its game program on the same scale it has since its beginning.
2. The number of licensed hunters increased from 300,000 in 1913 to 475,000 in 1922, intensifying all wild life conservation problems.

Clearfield, Pa.

3. The present game refuge system should be given adequate fire protection by modern methods.

4. Lands now held under lease as game refuges should be purchased outright before leases expire.

5. The refuge system should be extended before private hunting clubs have secured most of the most desirable territory.

6. The Forestry Department is unable to extend its state forest holdings during the next four years.

7. The increase in the number of hunters demands more field work, more game feeding and especially a far greater expense for restocking.

8. The Game Commission receives only ninety cents of the present dollar fee; all of the proposed increase will go to the Commission.

9. The recent report of the Citizens' Committee made after a survey of the game situation in the state recommended an increase to \$1.50.

A baby girl arrived February 4, 1923 at the home of Mr. and Mrs. Ernest F. Carr of South Fifth street.

TO RELIEVE PAIN AND BACKACHE

Women May Depend upon
Lydia E. Pinkham's Vegetable Compound

Minneapolis, Minn.—"I had heard so much about Lydia E. Pinkham's Vegetable Compound that when I realized I needed to take something to relieve my pains and backache, and to help build me up I began to take that. I had been sick off and on for years and barely weighed a hundred pounds, but now I have had such good results that I am recommending the Vegetable Compound to every one."—Mrs. J. J. BIERER, 2839 18th Ave. South, Minneapolis, Minn.

Finds a True Friend
"Every woman who values her health should be proud to have a true friend like the Vegetable Compound," says Mrs. W. E. Shaw, 3227 Walnut Street, Chicago, Illinois. "I had female weakness so badly that I could not stand on my feet. Half of my time was spent in bed and I had pains in my back which were unbearable. I tried everything I could think of to help myself, and when a friend advised Lydia E. Pinkham's Vegetable Compound I began taking it at once. I recommend it without hesitation."

KEEP STRONG

One bottle of pure, emulsified Norwegian cod liver oil taken now, may do you more good than a dozen taken a month hence. It's more economical to give your body help before resistance to disease is broken down. A very little

SCOTT'S EMULSION

OF PURE NORWEGIAN COD-LIVER OIL

goes a long way in sustaining strength and keeping up resistance. Resolve that you will buy a bottle of Scott's Emulsion at your druggist's on your way home, and start protecting your strength.

The exclusive grade of cod-liver oil used in Scott's Emulsion is the famous S. & B. Process, made in Norway and refined in our own American Laboratories. It is a guarantee of purity and palatability unsurpassed. Scott & Borne, Bloomfield, N. J.

Are you sending the whole child to school?

Everybody worth loving at all loves children. You'd horsewhip the man who mistreated one. Yet has it ever occurred to you parents that through neglect of their eyes you may be subjecting your children to the most cruel abuse conceivable?

Five million school children in this country—a fourth of all the children in all the schools—are not equipped for the work. And what they lack is the most vital weapon of all—good eyesight.

There is a duty here and that duty is plainly the parents'. Your child's chance in life may depend upon your taking action now in this matter of his eyesight.

Wellworth Windsor spectacles are suited to an active child's needs. We guarantee the most careful examination, one moreover that will fascinate the child. Do not delay a moment in getting the facts about your child's eyes and in acting upon them promptly for the sake of his future.

STEWART'S DRUG STORE

Skin Ablaze with Eczema Constant Itching Almost Unbearable!

We know there is one thing that stops you, eczema, and that is more red blood cells! You can increase your red blood cells to the point where it is practically impossible for eczema to exist. We know that as

blood-cells increase in number, blood impurities vanish! We also know that night follows day. Both are facts. But have you, eczema sufferers, ever actually taken advantage of this wonderful fact? Thousands just like you have never thought about it! Skin eruptions, eczema with all its fiery, skin-digging torture and its soul-tearing, unrelenting itching, pimples, blackheads and boils, they all pack up and go, when the tide of blood-cells begins to roll in! Blood-cells are the fighting-giants of nature! S. S. S. builds them by the million! It has been doing it since 1892! S. S. S. is one of the greatest blood-cell builders, blood-cleansers and body-builders known to us mortals! When you put these facts together—then to continue to have eczema and skin eruptions looks more like a sin than a disease. Mrs. Arthur N. Smith, Pearl St., Newark, Ohio, writes:

"My little girl had a very bad case of eczema. She began taking S. S. S. and in well now. I thank you very much. I tell my friends what a good medicine it is. I cannot tell too much about it, for I know it is O. K."

Here is your opportunity. S. S. S. contains only vegetable medicinal ingredients. Because S. S. S. does build red blood-cells, it routs rheumatism, builds firm flesh, fills out hollow cheeks, beautifies the complexion, builds you up when you are run-down. S. S. S. is sold at all drug stores, in two sizes. The larger size bottle is the more economical.

S.S.S. makes you feel like yourself again

HAVE DARK HAIR AND LOOK YOUNG

Nobody Can Tell When You Darken Gray, Faded Hair With Sage Tea

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

Well-known druggists say everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it is so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful.

ITCHING ECZEMA DRIED RIGHT UP BY THIS SULPHUR

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying a little Mentho-Sulphur, says a noted skin specialist. Because of its germ destroying properties, this sulphur preparation instantly brings ease from skin irritation, soothes and heals the eczema right up and leaves the skin clear and smooth. It seldom fails to relieve the torment and disfigurement sufferers from skin trouble should get a little jar of Rowles Mentho-Sulphur from any good druggist and use it like a cold cream.

Aspirin Say "Bayer" and Insist!

Unless you see the name "Bayer" on package or on tablets you are not getting the genuine Bayer product prescribed by physicians over twenty years and proved safe by millions for Colds, Toothache, Earache, Neuralgia, Headache, Lumbago, Rheumatism, Pain, Pain. Accept "Bayer Tablets of Aspirin" only. Each unbroken package contains proper directions. Handy boxes of twelve tablets cost few cents. Druggists also sell bottles of 24 and Bayer Manufacture of Monoacetic acidides of Salicylic acid. 100. Aspirin is the trade mark of Bayer Manufacture of Monoacetic

WATCH REPAIRS WHERE WE SHINE

The making of repairs on watches is one of the things which receive special attention in this shop. Every watch that comes in is given close scrutiny and the repair work is done under my personal supervision.

You will find that the folks who have been having their watch repair work done here, other than emergency work, don't have a lot of trouble with their work once it has been done here.

GUERRILLA WARFARE SEEMS CERTAIN IN RUHR DISTRICT

Rheims, Feb. 19.—Sixteen persons were killed and thirty-eight injured in a collision of the Paris-Nancy Express with a freight train here last night.

Dalhousie, Feb. 19.—Three French were killed and more than thirty injured when five engines were sent crashing into the rear of a French engineers' train between Weitzmar and Dalhousie. Signals on the line failed to work it was reported. The French blame sabotage.

One Belgian soldier was killed and seven were wounded when a Belgian train hit a French supply train at Gafeld near Duren.

Sentences will be immediately inflicted upon those found responsible, it was announced, and the French and Belgians are taking extraordinary precaution throughout the Ruhr to prevent further accidents.

Essen, Feb. 19.—Fighting between French soldiers and German policemen in different parts of the Ruhr was reported today and the situation seemed drifting toward guerrilla warfare.

A German policeman shot and wounded a French soldier at Gelsenkirchen, the latter returning the fire and wounding the policeman.

Feeling throughout the occupied areas became extremely bitter, this clash coming a few hours after a French officer was found dead, believed slain by German policemen. Several other clashes between police and troops were reported.

STAND REVERENTLY BEFORE BIER OF LONG DEAD KING

Luxor, Feb. 19.—Pharaoh Tut-anh-amen, dead for thirty-five centuries, is holding court once more on the banks of the Nile.

Foreign potentates, representatives of kings, whose ancestors were painted savages when Tut-anh-amen died famous warriors and alien nobles died slowly into the palace of death where the ancient monarch now holds sway and stood reverently before his catafalque.

Visitor From Renova Gets Gay On Our White Way; Costs Him \$7.00

A railroad man said to be from Renova had the temerity to tackle some Clearfield county moonshine last evening and as a result went down for the count. Burgess Kittelberger doing the counting this morning.

After underestimating his capacity or the 'shine's wallop, the downriver visitor got real gay and not only fainted, but attempted to "clean up" the bowery. Not having a Board of Health permit the Clintonite quickly fell into the hands of Chief of Police McMullen and Officer Woolridge who stowed him away at the "Borough Tavern." Burgess Kittelberger did the "counting" this morning and when he got up to \$7.00 the now thoroughly repentant visitor coughed up and was allowed to go his way.

ESCAPING GAS IS FATAL TO TWO IN PITSTON FAMILY

Pittston, Pa., Feb. 19.—Two persons are dead and seven more are in the Pittston Hospital today suffering from the fumes of illuminating gas, which traveled along water pipes from a broken gas main to their home on Market street here.

Philadelphia, Feb. 19.—Three men and a woman were killed and six other persons were overcome by escaping illuminating gas over the week end, according to police reports today. Three of the victims met death by inhaling the deadly fumes.

TWENTY-TWO DEAD IN CATASTROPHE AT INSANE HOSPITAL

New York, Feb. 18.—A terrific blast set by dredgers in Hell Gate last night rocked the building of the Manhattan State Hospital for the Insane of Wards Island in the East River, and set the 6,338 inmates cowering and wailing within sense of impending doom.

Attendants calmed them and got them to bed, but before morning the doom fantasied by the disordered brains had come true for 22 of the maddened. They had been burned to death in a fierce fire that swept the west wing of the main building. Three heroic attendants died with them, striving to the last to rescue them.

Hospital authorities and City Medical Examiner Morris, who rushed to the scene, said that in all probability the blast had been the immediate cause of the fire. According to their theory it caused a break in the insulation of electric wires in the attic of the building. A short circuit they think did the rest.

The fire was discovered at 5:05 o'clock by Michael Campbell, an attendant in Ward 43, in which all the fatalities occurred. His calm, heroic work and that of James Hill, attendant in charge and Patrick Billigan, of Hartford, Conn., Geo. Emo, and George Reiss, the three attendants who were burned to death, prevented a further holocaust.

Campbell manned a hose line and fought back the flames, while the others ran up and down the 200 foot corridor, rousing the inmates with the cool order "all out for breakfast."

As fast as the maniacs, headed by Marcus B. Heyman, as the most dangerous on the island, could be marshaled from their rooms, they were marched in orderly procession to the fire proof dining hall, far from the scene of the fire.

Seventy of the 92 inmates of Ward 43 had been led or carried to safety, when a water tank in the blazing attic, crashed through the ceiling, completely blocking the corridor to safety and filling the hall with flames and smoke. City firemen, fighting their way past the blazing barrier, brought out several screaming maniacs, and several who had been overcome by smoke while dressing for the "breakfast" call. Most of the dead were found in the room and corridor beyond the fallen tank. Several were believed to have been carried down and buried beneath debris when the floor gave way.

Seventeen bodies of inmates and one believed to be that of an attendant had been recovered tonight. In

Babe and Baby

The call of the spring training camp has broken the ballplayer's home ties. Here is Babe Ruth saying good-by to his little daughter as he is about to leave for the Yankee camp in Hot Springs.

The Feminine Bloc in Congress

This is the first picture taken of the three women members of Congress. Left to right, Congresswomen Huel of Illinois, Nolan of California and Robertson of Oklahoma. Mrs. Huel and Mrs. Nolan were elected to fill the unexpired terms of their husbands who died while in office.

COOPER TOWNSHIP LOST HIGH SCHOOL IN FIRE YESTERDAY

Cooper township lost its commodious township high school by fire last night. The high school building was built only four or five years ago at a cost of \$18,000 and was a model structure, containing four classrooms, auditorium, offices and laboratory for scientific subjects. In addition to the building being a total loss, all the furniture, equipment, books, and all the school records of the district were lost.

The fire is believed to have started about seven thirty as passersby say they smelled smoke at that hour but the blaze, which no doubt had been smoldering for a long time did not break out until after ten o'clock. When the fire was discovered, the building was dense with smoke and no one could enter.

The new building set at what is known as the "crossroads" where the road from Kylertown to Lansie intersects with the road from Wimburne to Grass Flat.

Housing the pupils is quite a problem but it is understood that the Kylertown four room building will be utilized for a high school. At present only three rooms are being used in the Kylertown building and it is the plan to house the grade pupils temporarily in the churches.

The total loss is set at better than \$25,000 and \$10,000 insurance was carried.

FOUR NEGROES ARE BURNED TO DEATH IN APARTMENT FIRE

New York, Feb. 19.—Four negroes were burned to death and one negro and three police were overcome by smoke when fire started from an overturned lamp swept a four story apartment house in Fleet street, Brooklyn early today.

The dead are Mrs. Blanche Henley, her two children and her mother. Wm. Henley, the father, discovered the flames and ran into the street to give the alarm before awakening the family. By the time he had returned the flames had barred entrance to the Hanley apartment.

Commercial Club Will Observe Patriotic Dates This Evening

The meeting of the Commercial Club at Jordan's this evening at 6:15 will be of a patriotic nature and should prove one of the most spirited they have had for some time. The orator for the occasion is Ward Fleming, Esq., of Philipsburg who will pay fitting tribute to Washington and Lincoln and make the eagle scream in Centre county style. Dick Martin will furnish the music and "Y. M. C. A." Pearce will lead the singing so don't miss this treat.

WARMER WEATHER IS PROSPECT FOR THE BALANCE OF WEEK

Washington, Feb. 19.—A definite break in the cold wave of the past week in nearly all the territory east of the Mississippi, the Weather Bureau forecasted today. Warmer weather tonight and Tuesday was forecasted.

CHICAGO LEADERS OF LABOR BATTLE; ONE IS SHOT DEAD

Chicago, Feb. 19.—Steve Kelleher, prominent Chicago labor leader was shot to death by Daniel McCarthy, another labor leader in a spectacular gun battle in a crowded cabaret here early today.

Mr. Thomas Golden, an innocent bystander was wounded in the shoulder.

McCarthy fled but was later captured by police and is alleged to have confessed. The shooting was the result of dissension in the ranks of a Chicago Building Trades Council, police believe. Kelleher was the twenty-fourth victim of labor fights in Chicago during the past ten years, police records show.

RENEWED CIVIL WAR MARKS END OF THE IRISH AMNESTY

Dublin, Feb. 19.—Renewed civil war marked the end of the Free State amnesty offer today. Fighting between national troops and irregulars occurred and a rebel campaign of arson and bombing was resumed. Extraordinary activity on the part of the Free State troops is believed to preface a great drive against the insurgents.

In North Kerry rebel leader Pierce asked and obtained extension of the amnesty in his district until next Tuesday to enable him to gather scattered bands for surrender.

Mrs. Raizen Guilty Of 2nd. Degree Murder; To Be Sentenced Tomorrow

New York, Feb. 19.—Attendants kept a constant watch over Mrs. Lilian Raizen, convicted slayer of Dr. Abraham Glickstein, to prevent a possible attempt at suicide today, while announcement was made that sentence will be passed tomorrow.

A jury this noon brought in a verdict of second degree murder. Mrs. Raizen is near collapse.

Saltsburg Lothario Is Still Living; Wronged Husband Not Arrested

Pittsburg, Feb. 19.—The condition of Charles Raymond Pearce, who was shot in a love triangle at Saltsburg Extension, was reported fair at the Allegheny General hospital today. Physicians refuse, however, to say whether Pearce will recover.

Pearce was alleged to have been shot five times by George Ferguson in the latter's home at Saltsburg. No move has yet been made for the arrest of Ferguson, who, it is alleged, found Pearce with his wife.

Erie St. Vincent's Hospital Will Get State Appropriation

Philadelphia, Feb. 19.—The State Supreme Court in an opinion filed today decided that the St. Vincent's hospital of Erie, Pa., is entitled to the state's appropriation made to it and held that the hospital is not the sectarian institution alleged by the complainant and does not fall in that class of sectarian charities, which under the constitution are not entitled to state appropriations as decided by Chief Justice Von Moschizher some years ago in a celebrated opinion.

PENNSYLVANIA PRODUCES OVER SIX BILLION DOLLARS WORTH OF PRODUCTS IN INDUSTRIAL PLANTS DURING 1921

Million and a Quarter Persons Employed; This County Shows Production of Thirty-One Millions.

FULTON LOWEST FIGURE

Harrisburg, Pa., Feb. 19.—Pennsylvania's productive industrial plant numbering 25,426 in 1921 turned out products having a value of \$6,121,875,000, according to the results of studies of reports announced today by Secretary of Internal Affairs James F. Woodward. The compilations were made by the Bureau of Statistics and information of the Pennsylvania Department of Internal Affairs and they show that of the total value of the State's industrial products, products worth \$3,629,909,500, or practically one-half of the total valuation, were shipped to points outside of Pennsylvania for distribution and consumption.

The total figures include new production only so that activities in the repair shops of public service companies, including railroads, are not used. The construction of new engines, cars, etc., is included in the totals. Repair shop items are shown in another departmental report dealing with public service industrial activities.

Philadelphia led all of the other counties of the State in 1921 with a total production valuation of \$1,468,256,900 while Allegheny County was second with \$1,170,810,800. Luzerne County was third with \$804,462,800; Northampton, fourth with \$280,464,100 and Delaware County

with \$197,918,500. Fulton County was at the bottom of the ladder with a production valuation of \$212,300 and Pike was next with \$377,500.

Pennsylvania's industrial establishments gave employment during the year to 1,270,599 persons of whom 867,334 were Americans white, 38,592 were Americans colored and 364,733 were foreigners. Of the total employees 1,055,024 were males and 215,575 were females. In all classes of industry in the State there were 6,178 minor boys and 8,616 minor girls employed.

The States' industrial payroll for the year for its vast army of workers was \$1,451,271,500 and of this amount \$1,315,990,800 was paid to male employees and \$135,280,700 was paid to female workers. An interesting feature of the wage study is that in certain counties such as those in the oil and lumber regions the labor cost is considerably less than in the coal, metal and textile producing counties, the character of the production governing the labor costs in all cases.

The capital invested in the industrial establishments of the State amounted to \$4,920,936,300. Practically one-third of Pennsylvania's production valuation during 1921 was represented by metals and metal products which were worth \$2,171,677,200. Textiles and textile products stood second with a value of \$844,987,000 and the products of mines and quarries held third position with a value of \$811,513,000. Other industrial classes had values

CRIMINAL COURT BEGINSTODAY WITH SMALL LIST

Girl From DuBois Will Be Tried For Stealing 3 Cucumber Pickles; Balance Booze Cases.

SENTENCE FORGER

February criminal court opened this morning with Judge Bell presiding and a list of nineteen cases scheduled for trial. However when the list was called so many of the cases were settled or continued that it looked for a time as though the court for the week would be shot to pieces.

The morning session was devoted to hearing motions, petitions, etc., after which the list of jurors were called and a number of jurors excused from jury duty for the week.

The criminal list for next week is made up of twenty-five cases, twenty of which are for violation of the liquor law.

You simply can't keep those DuBois people out of Court, and while the list from DuBois only totals three cases—the smallest number in the knowledge of anybody now about the Court House—in one of these cases a young woman is being prosecuted for the larceny of three cucumber pickles.

Sentences Handed Out

Before taking up the trial of cases Judge Bell handed out sentences in the following cases.

Daniel Caldwell and W. L. Smith, who were arrested at Coalport on Dec. 24th, 1922, for each packing a quart of moonshine on their hips, were fined \$100 and the costs and further sentence deferred.

Tony Marco, of Clearfield, who entered a plea of guilty to the sale of a pint or two to the State Police who operated here some time ago, was given \$100 fine and costs and four months in jail, with the privilege of a parole after two months.

Ira Passmore, of Clearfield, who entered a plea of guilty of forging the name of Frank Shaw to a check for \$10 which was cashed by C. M. Shurgarts at his West Side restaurant, acknowledged having been sentenced on two or three occasions for similar offenses, and was sentenced to pay \$100 fine and costs and undergo imprisonment in the Western Penitentiary for not more than five nor less than four years.

CONCERT OF PURE AMERICAN MUSIC GREATLY ENJOYED

A crowded auditorium greeted Central Pennsylvania's best band yesterday afternoon when the curtain rose at the High School for the patriotic concert given by the American Legion Band of Clearfield. The band never looked prettier and snappier than it did yesterday afternoon and the music they gave so freely and generously to the assembled Clearfieldians was of a very high order. As announced the program was entirely of American composers and the concert was tremendously enjoyed by everybody, particularly by that large number of people who want to hear tunes that the know and can hum and whistle to their heart's content.

The solo work of Harry P. Bridge, Jr., and the barytone player was excellent, lending an artistic finish to the otherwise familiar melodies while the Battery Park March and the American Patrol numbers were thunderously encored.

The audience joined right in the spirit of the occasion by jumping right into the community singing and a very enjoyable quarter hour was spent in this manner.

Senator William I. Betts contributed much to the enjoyment of the afternoon and the value of the occasion with one of those whip cracking patriotic addresses which he is so capable of making.

Altogether it was a wonderful affair.

(Continued on Page 3)

KARTHAUS "SHINER" CAUGHT WITH GOODS IN SATURDAY RAID

Detective Snyder and State Police Nab Two Men and Get 3 Stills and Lots of Hootch.

County Detective Snyder, aided by State Troopers Barker and Pierce, cleaned up the source of a considerable supply of moonshine in the Karthaus community Saturday. For some time complaints have been coming from the downriver section regarding the quantity of booze that was being splashed about that section. Detective Snyder after careful investigation located the source of a large part of the wet stuff in the mountain cabin of Victor Chisko, who lived back on the hills a short distance from the town. When he had his plans all laid the county detective called the state troopers to his assistance and a raid was made on Victor's shack Saturday.

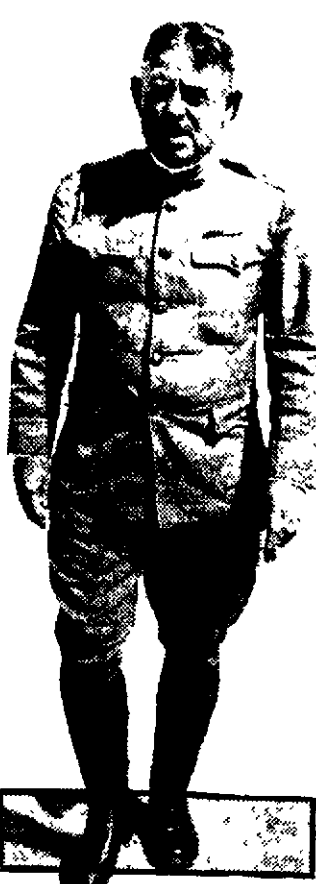

The chief moonshiner was caught in the act, while Joe Gonaversky, his alleged agent, who served the trade and disposed of Chisko's product to his regular customers, was also taken in to custody.

After being arrested Chisko entered bail in the sum of \$1,000, but Gonaversky was unable to do so and he was brought up to jail yesterday. In addition to the moonshiner and his bootlegger, three stills, 75 gallons of mash and four gallons of manufactured liquor were taken in the raid.

TURKS FAVOR WAR IS REPORT ON EVE OF ANGORA MEET

Constantinople, Feb. 19.—Turkish Nationalist sentiment favoring war is reported running high at Angora where the Ottoman assembly today are to receive the report of Ismet Pasha on the Lausanne conference. The Turkish foreign minister left for Great Britain urging that the Kemalists sign the peace treaty Ismet rejected at the Lausanne conference.

General Cronkhite

This is a recent photo of Maj.-Gen. Adelbert Cronkhite who may be the center of Congressional investigation as a result of a retirement order. According to his friends, General Cronkhite's retirement is the result of his efforts to bring alleged slanders of his son to justice.

SAP'S BEGINNING TO RUN!

W. C. T. U. EXECUTIVE MEETING

A representative executive meeting of the W. C. T. U. was held Friday last in St. John's Lutheran church. Mrs. Miles Wrigley and Mrs. W. C. Fugate of Mahaffey, Mrs. Lillian Trezise, Mrs. G. C. Sink, Mrs. Clara Beigitt of DuBois, Mrs. Tozer of LaJole, Mrs. Elizabeth Gates, Mrs. Mary McNaull, Mrs. Margaret Dunsmore and Mrs. Miles Porter of Curwensville, and Mrs. John Thomas of Osceola were present. The local members present were Mrs. Runk, Mrs. Bell, Mrs. Chorpennig and Miss Chorpennig.

The prominent subject of discussion was "Law Enforcement," which was also the subject of the recent legislative conference held in Harrisburg at the call of the state officers of the W. C. T. U. Mrs. Ella M. George presided at the meetings, the first of which was a banquet at the Penn-Harris hotel. The speakers were Hon. C. J. Goodnough, speaker of the House of Representatives; Senator Plymouth W. Snyder, who presented the enforcement bill in the Senate; Miss Gertrude McKinney, member of the House of Representatives; Miss Florence Albert, state president Federated Clubs; Miss Amanda Landes, vice president of the state W. C. T. U.; and Mrs. Leah Cobb Marion, treasurer of Pennsylvania W. C. T. U., whose subject, "Pinchot, Pennsylvania's Dry Cleanse," which was handled in her usual admirable and witty manner. The conference was honored with an address by Governor Pinchot and a visit from Mrs. Pinchot, both of which were enthusiastically received.

The general subject, "Law Enforcement," was presented from various angles by Major J. O. Campbell, deputy attorney general; Senator Barr, Dr. Homer W. Tope, Michael J. Fanning, Rev. W. B. Forney, Rev. Robert Bagnell, D. D., and Major Lynn G. Adams, superintendent of the State Police Department, whose straightforward outline of the duties of citizens and police was the outstanding feature of the conference.

Miss Anna A. Gordon, national president of the W. C. T. U., lent the inspiration of her presence to the occasion, and gave several helpful addresses. State W. C. T. U. workers honored with a place on this program were Mrs. M. M. Steese of Dauphin county, and Miss LaRue M. Chorpennig of Clearfield county, who was the local representative and reported the conference to the executive meeting.

Important business was transacted and the executive sessions were helpful and enthusiastic and the lunch and dinner served by the local union were much enjoyed, a vote of thanks being tendered them by those present.

STOP ITCHING ECZEMA

Penetrating, Antiseptic Zemo Will Help You

Never mind how often you have tried and failed, you can stop burning, itching Eczema quickly by applying Zemo furnished by any druggist for 35c. Extra large bottle, \$1.00. Healing begins the moment Zemo is applied. In a short time usually every trace of Eczema, Tetter, Pimples, Rash, Blackheads and similar skin diseases will be removed. For clearing the skin and making it vigorously healthy, always use Zemo, the penetrating, antiseptic liquid. When others fail it is the one dependable treatment for skin troubles of all kinds.

148 West Market Street.

Mr. and Mrs. Emmett Buchannan, have returned from Philadelphia where they attended the funeral of the latter's aunt, Mrs. Margaret Cartwright, formerly of this place.

Nathan Kohut, Clarion agent for the B. R. & P. Ry. Co., with headquarters at Pottsville, was a business visitor to Clearfield today.

Mrs. A. W. Lye, Jr., was advised by wire on Saturday last of the death that morning at his home in Lexington, Ky., of her cousin, Madison L. Lye.

ODDS AND ENDS AND THINGS

By J. D. C.

The total cost of governing the people of the United States is nearly \$8,500,000,000 a year, according to a computation made for The Budget, the monthly publication of the national budget committee, by William P. Helm, Jr., its Washington correspondent.

On the basis of 40,000,000 workers whose gross income is \$60,000,000,000 a year, this means that the burden of government on every man and woman in business or professional life, including the 2,000,000 persons who are on the public pay-rolls in nation, states, cities, countries and other municipalities, would be about \$220 annually. If they should contribute labor instead of dollars, every worker would give as his or her share more than seven weeks' labor every year. Every week every one of us would work approximately one day without pay a our contribution to the cost of preserving life, liberty and the pursuit of happiness under our intricate and far-flung system of government.

Mr. Helm bases his estimates upon the public pay-rolls as are available for the year 1921. These show the number of public servants in the United States to be not less than 2,000,000. In other words we have working for us today in civil life and in the national defense, 1,000,000 employees to the number of all the military forces we sent into and during the World war.

In the U. S. there are more than 50,000 towns and city firemen, 82,000 policemen, 115,000 guards, watchmen and doorknockers, 107,000 common laborers, 12,000 detectives and 10,000 sheriffs, 54,000 city and county inspectors of various kinds, 122,000 postmasters, 225,000 sailors, soldiers and marines, 2,300 life-savers, and so on, down to make doctors and star-gazers.

The census of 1920 gives the total number of workers within the United States as 41,612,215. One out of every twenty is, therefore, on the public pay-roll. If the railroads of the coun-

try were to marshal their forces, they would fail to match the army of men and women holding remunerative government positions. All the coal mines and all the automobile plants in the country combined fall short of the man-power of government. All the hired men on all the farms in the United States barely equal in number our public pay roll attacks.

As to the cost of maintaining the various forms of governmental activity, Mr. Helm gives the following summary for the calendar year 1921:

Federal government	\$4,666,671,594
48 state governments	1,088,540,652
253 municipal governments of over 30,000 inhabitants	1,638,296,652
Municipal governments of from 2,500 to 30,000	431,287,052
Municipal governments in 12,905 communities under 2,500	123,147,637
County governments in the 48 states	592,035,972

Total cost of American government in 1921: \$8,400,911,537

"By this method of computation," he writes, "the total cost of American government in 1921 was within hailing distance of \$8,500,000,000. That sum is beyond human imagination; no man can visualize it in bulk or power any more than he can conceive of space. But there are comparisons through which a sense of the magnitude of this sum can readily be obtained.

"Assume, for instance, that all this money had to be paid out in gold. If we were to ferret out all the gold above ground in the world today the sum would be but little more than sufficient for one year's payments.

"The national income of the United States recently has been estimated by leading economists at from \$60,000,000,000 to \$65,000,000,000 annually. The government's own investigation dates so far back as to be of little value, but lends some credence to these estimates. Assuming that 60,000,000,000 is approximately correct, the cost of government is about 14 per cent—more than one-eighth—of our national income.

"We have 40,000,000 workers, or thereabouts. If the cost of govern-

ment were to be equally distributed among them, the burden on every man and woman in business or professional life, including the 2,000,000 government workers, would be about \$220 a year. On the basis of five persons to one family, the cost of government is about \$400 per family per year."

Twenty-Two Dead

(Continued From Page One.)

In addition a few charred bones have been found, which were believed to be all that was left of those unaccounted for.

Only two of the eighteen bodies recovered have been identified.

The 92 patients imprisoned in Ward 42 on the third floor, where the fire took its toll, were described by Dr. Heyman as "violent, homicidally-inclined men," anyone of whom might have turned murderously on his rescuer.

But so coolly did the attendants work that in only a half dozen cases at the most were there incidents of struggle against or attacks on attendants.

While the rescue work was being carried forth the flames burst through the roof of the building and lighted up the entire island. Screams of the terrified patients nearest the flames roused the entire population of the madman isle and in a twinkling every window framed a maniac face.

World's Standard Cold Remedy

In disagreeable weather always keep this handy standard cold remedy which cures for two to three days. Safe and dependable. No bad effects, no loss of appetite. Demand red box. For sale in all drug stores. Write for literature. W. H. H. Co., New York, N. Y.

a year**

You will be amazed to see how the use of "Bull" Durham will cut down the cost of your smoking.

How is it possible to give you quality at the low cost of 10 cents for 50 cigarettes?

Here's one reason: The government tax alone on 50 machine-made cigarettes is 15 cents—**5 CENTS MORE THAN THE COST OF 50 "BULL" DURHAM CIGARETTES TO YOU!**

The average smoker saves \$1 to \$1.50 a week by "rolling his own" from "Bull"—or from \$52 to \$78 a year. This makes quite a Christmas fund—or pays for a fine trip.

10¢

GENUINE

"BULL"

DURHAM

TOBACCO

★ What a place "Bull" Durham holds in the hearts of Americans! Can you think of any other brand that has been the favorite of three generations?

Look at its history. From the Civil War to the Great War "Bull" Durham has been the American's greatest standby. Sixty years.

There really is no smoke in the world so altogether satisfactory.

A "Bull" smoker never switches. You can't interest him in any new experiments. He carries his preference wherever he goes.

This is because the special flavor and aroma of "Bull" Durham make a cigarette that can not be duplicated.

Find out. You will never know how good a cigarette can really be until you roll your own out of "Bull".

If all the fellows mentioned for public office this year listen to the advice of friends the ballot for the September primary is going to look like a billboard and the voter will have to roller skate from one section of the ballot to another to mark it.

Rarely a day passes now that someone does not edge up to several fellows and sound them out as to his particular friend. And, incidentally, there are a lot of good suggestions being made, if the men mentioned can only be persuaded to go into the primary to win.

It looks like a free-for-all, with holds "catch as catch can" and the timorous fellow had better get scared out at the start. It is also quite as apparent that the fellow who can see the most voters is the fellow who stands the best chance.

It is no time for a weak sister.

This long wintry spell of weather has temporarily put the over-the-counter business on the toboggan. Most any fellow you meet will admit that his winter underwear, socks, shoes and other haberdashery is about "all in" but hanged if he is going to buy any more until the clearance sales start. And we presume the ladies are in about the same frame of mind about clothes.

Let Old Sol peak around the corner though for about six days in succession and every lost mother's son of us, and the daughters too, are going to highball for the stores.

It's a wise merchant that will have his clearance sales early this year and a plentiful supply of spring goods in the basement ready to be put on the shelves, for there is nothing to hold up the buyer's parade this season.

Some folks are awfully hard to please. The Public Ledger and the New York World would have been the first to condemn Warren G. Harding had he resorted to big stick methods to force the refunding plan and ship subsidy down the throats of the Senate. Had Warren G. Harding been strong enough as a leader to compel the Senate to put the stamp of approval in both these measures they would have been the first to label him the "boss" and the first to condemn the Senators for being so led. Now that the Senate shows some signs of exercising their own minds and doing as they please individually, these two journals adopt the other tact and point out the weakness of Warren G. Harding as a leader. Obviously Warren G. Harding is doomed if he does and doomed if he doesn't.

The vote on the refunding plan indicated two things, however, regardless of what such journals as the Ledger and the World say. First, that the refunding plan had sufficient merit to pass overwhelmingly and to command the support of twenty-four Democratic Senators. Second, that leaders and bosses are not what make majorities for administration issues when those issues are sound.

Promptness and Efficiency

POULTRY

STRIVING FOR WINTER EGGS

Room, Warmth, Ventilation and Light, Are Among Most Essential Factors With Hens.

The poultry house originally designed several years ago by the poultry department of the Missouri College of Agriculture, and now in general use in many states and in the Dominion of Canada, allows two and two-thirds square feet of floor space for each hen. The nest is provided for every six hens, and enough roosts are supplied to give each hen a reserved seat eight inches apart.

This extremely practical poultry house has a number of special features which have proved helpful in getting high winter production.

Light is admitted from all directions by means of six-light glass windows, two in front, two in each side and one in the rear. There are, therefore, no dark corners in this house. Since light comes in from all sides the hens scratch in all directions and the litter never piles up.

A 30-inch wire-covered opening, one foot from the floor and extending from each side of the door the entire width of the front, gives the Missouri poultry house good ventilation. During the winter the success of ventilation of this type depends upon having the east, west, and north sides and the roof entirely airtight so that wind will drive into the house only a short distance and never back to the roosts which are on the north side. There is a gradual movement of the air from the inside out, thus insuring an abundance of ventilation without drafts.

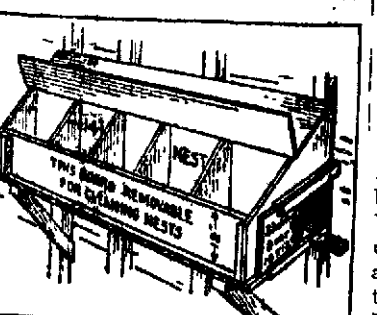

The straw loft is another distinctive feature. Jolts or collar beams are placed in the house just high enough to afford head room. In order to prevent the birds from roosting on these, they are covered with inch boards four inches wide, placed two inches apart. This forms a loft which is filled with straw. The straw acts as a sort of sponge by absorbing both dampness and heat and helps to keep the house drier and warmer in winter and cooler in summer.

Using this poultry house, 200 demonstration farm flocks average in 37 Missouri counties last year got 125 eggs per hen and a profit of \$2.88 per hen. Extension Circular 101, sent free by the Missouri Agricultural Extension Service, Columbia, Mo., gives plans, lumber bill and directions to enable anyone to build a poultry house of this type.

PRACTICAL NEST FOR HENS

Built of Good Quality of Lumber They Can Be Made Any Length Desired by Poultryman.

The nests shown in the accompanying picture are very practical. They are built of a good quality of lumber planned on both sides and can be made of any length desired. Individual nests are 14 inches square, 12 inches high in front and the front board is removable for cleaning.

A Good Type of Nest.

movable for cleaning. At the rear of the nest is a 1 by 4 inch board to hold the nest material in place.

The hens enter and leave through a door at one end which may be closed at night to keep sitting hens from staying on the nests. Flaps of straw are a much better nesting material than straw because the hollow stems of the latter make ideal breeding places for mites.

WATCH FOR ROUP SYMPTOMS

Listening in Hen House at Night for Deep Breathing or Rattle in Throat of Fowls.

Go into the hen house at night and listen diligently for a short while. It is a good way to detect a cold or the first symptoms of roup in the flock. Birds breathing hard or rattling in their throat should be taken off the roosts and carefully examined, and, if affected in any way, removed to a coop or apartment away from the rest of the flock.

WINTER ATTENTION TO HENS

Fowls Must Be Fed to Grow New Coat of Feathers and Regain Their Lost Vitality.

Market all hens except those known to be good layers. During the winter months hens must be fed so as to grow their new coat of feathers, regain vitality lost through heavy egg production, put on some flesh and be ready to produce eggs of strong vitality in time for the hatching season.

Clearfield Scrubs Had a Battle

(Continued from Page One)

from mid-floor tied the score, 30 each. During the extra five minute period neither five could register a basket from the floor, Mitchelltree rapping two perfect tosses through the hoop from the fifteen-foot mark, while Mason annexed but one point from two like attempts, the extra period ending 32 to 31 in the locals' favor.

Mt. Union Team Clever.

The visitors, altho lacking in consistent team work, displayed flashes of real form at various stages of the game. They were at their best when working tip-off plays, which would have resulted in many more scores had Mt. Union's passers varied their running formations under the basket.

Center Mason of M. U. was the scoring ace of the game. Without this husky lad, the refractory town tossers would have tallied few points, as the locals' defense made the visitors constantly resort to long shots. Mason's long range shooting and foul tosses added 25 points to his teammates' 6 points.

Captain Klinger and Appleby, both forwards, played creditably for the losers.

The line-up:

Clearfield Reserves Mt. Union High
P. Barrie F Klinger (c)
Wilson F Appleby
Boyer C Mason
K. Barrie G Wharton
Mitchelltree(c) G Sellers
Substitutions.—Maurer for P. Barrie; Gerlock for Wharton.

Baskets: Wilson 4, Mitchelltree 2, P. Barrie 1, Maurer 1, Boyce 1, K. Barrie 1; Mason 7, Appleby 2, Klinger 1. Fouls: Mitch 10 out of 18, K. Barrie 2 out of 7; Mason 11 out of 19.

Dope on Red and Black Reserves.

Few schools can boast of a scrub team of the calibre of C. H. S.'s 1922 reserves, who to date have defeated all their opponents. Against Mount Union, although each scrub was smaller than his opponent, they out-fought and actually out-passed the visiting players. Instead of individualism which the Mount Union team had "nothing else but," Coach Reed's comers played a five-man game. Six men played for C. H. S. and every man scored at least one field goal. Swift, accurate passing and a defense that was instantly convertible into a winding up the floor offensive, were features of the second stringers' play.

Captain Mitchelltree, playing a fine all around game, was the fastest man on the floor, and when coupled with a steady lad of Ken Barrie's type, form a brace of guards hard to beat. Bill Boyce at center played a good defensive game and fed the local forwards well. Boyce, although a newcomer, is a fighter, and is a reliable understudy for Nick Brown. Bob Wilson and Pete Barrie at forward worked their passing to perfection and displayed combination form not unlike the old Neff and Ammerman passing game, while Ray Maurer, playing his first game, handled himself in a manner that stamps him as one of the leading younger players.

N. W. P. I. A. L. One of the Fastest. The basketball league of which Clearfield is a member is considered by referees to be on a par with the Central Pennsylvania League, which is composed of such teams as Harrisburg Tech, Williamsport, Reading, York, Lebanon, Steelton, and others of equal standing. Inasmuch as the above teams are considered the best in their section, the N. W. P. I. A. League is undoubtedly made up of the strongest scholastic fives in Western Pennsylvania.

The Clearfield second team has already defeated some of the best teams in the Mountain League, in fact the three leading teams in that league have fallen before the local second stringers' prowess. Philipsburg, playing on their home court, were outclassed 38 to 18 by a strictly organized string combination from C. H. S. Hoytsdale Hi lost by a score of 52 to 30 and Mt. Union took the small end of a 32 to 31 score. Although Philipsburg is now leading the league, Mount Union should win out in the end, as the main-liners displayed far more stuff than either of the other two Mountain League fives did when playing the local reserves.

DuBois and Brookville have been winning from the best out in the Oil City district, so it is safe to say that the team that finishes at the top of the N. W. P. I. A. League can be classed with the foremost high school outfits in this state.

Referee Wagner, who officiated at the C. H. S.-Mt. Union contest, said, after the game: "Clearfield's second team is one of the fastest high school outfits I have seen this season, and should be able to defeat Lock Haven High's varsity, who were outclassed at Lock Haven by the Mount Union Five."

It should also be of interest to know that the Mt. Union squad is credited with two victories out of three starts with the fast Altoona dribblers.

While not practical, it would have been possible for Clearfield High to have maintained teams in two leagues

LEWISTOWN, PA.

CLEARFIELD, PA.

LETTER TO THE EDITOR—

Mr. G. Albert Stewart,
Managing Editor,
The Clearfield Progress,
Clearfield, Penna.

Dear Sir:—

In an editorial of the 15th of this month, I note you quote with disapprobation, for you style the declaration "another fling," the curt distributive of Mr. Thomas A. Edison on college education. Because of my interest in young people for every one of whom I covet the equipment of higher education and my estimate and dependence upon the best training, I want to applaud your stricture of the "fling" of Mr. Edison on education, a characteristic attitude of a few successful "self-made men."

Over against his superficial criticism—

"College men don't know what is going on. They are too dense," etc.

may I ask you to give publicity to the recent official report prepared for the United States Bureau of Education from the investigation of that careful statistician, Professor A. Caswell Ellis, who finds that

"Less than one per cent. of Americans are college graduates, yet this less than one per cent. has furnished:

55% of our Presidents;
36% of the members of Congress;
47% of the Speakers of the House;
54% of the Vice-Presidents;
62% of the Secretaries of State;
50% of the Secretaries of the Treasury;

67% of the Attorneys General;
69% of the Justices of the Supreme Court."

I ask you to place in bold type this additional finding by Professor Ellis—"The College man's chance for eminence is 870 to one as against the non-college man."

Note the significance of "eminence," which contains the factors of service rather than success alone.

Respectfully,
HORACE LINCOLN JACOBS.

SCHOOL BOARD PICKS OUR MILK

Last week the school authorities, in conjunction with the better health authorities, began to give the kiddies that are underweight in the schools, milk twice a day.

The school board elected our milk simply because it contains all the nutriment that milk could contain and has been put through the pasteurization process, eliminating all possible chance of contagion.

That's a mighty good recommendation for our milk.

OFFICE SUPPLIES

We have been fitting up offices for so long that it has become second nature to fit them up to the highest point of efficiency.

We have everything right here in the store, from scratch pads to elaborate filing cases and you'll find that your office work is going along smoothly.

Drop in some afternoon when your office work has been going askew all day and you've been harrassed to the point where your office work has slowed down. Possibly we can suggest a remedy.

Mountain Haze Comes As A New Color for Spring Wear

By HEDDA HOY

Fashion Editor of the United Press, New York, N. Y., Feb. 19.—This time of the year styles are almost at a complete standstill. The winter styles have exhausted their efforts for new innovations and the spring styles are still undergoing changes before being finally announced.

Certain style tendencies, however, may be glimpsed at the advanced style shows which will undoubtedly rule during the coming season. The silhouette will evidently remain slender with dressy gowns showing a preference for drapes rather than for side panels. The dipped hemline is conspicuous by its absence in the new spring models.

A New Shade.

"Mountain haze," a new shade of orchid which verges on the violet tones is considered the chosen color of the season. It will probably be more popular than the periwinkle blue of last season, as it is a softer shade and more easily worn. It is especially beautiful for the dinner gown of soft chiffon or georgette and is at its best when beaded in self-colored beads. There are a great many displays of "mountain haze" in the Fifth Avenue windows just now, ranging from dinner and dance gowns to lingerie and tweed sport suits. Used as a lingerie color, it is combined with lace and truly reminds one of "lavender and old lace." How lovely a bridal set of chemise, step-ins, nightgown and a tulle slip would be made up in this lovely shade!

Yellow will be one of the sports colors and it is extremely popular just now at Palm Beach.

Blouses cut on jacket lines are made of printed materials with the design of the material outlined in beads. This is a new and simple way of trans-

forming an inexpensive printed blouse into an exquisite one; steel beads are being used to outline many of the Paisley-print blouses and beads of brilliant hue are used on the more colorful printed materials.

The reaction against black is noticed even among the accessories, where bright colored buttons are again in vogue, after many years of absence. Buttons which are crudely vivid are used to add splashes of color rather than to harmonize with the gown. Old-fashioned porcelain buttons with quail flower motifs have been revived. Hand-painted buttons of wood are carved out in designs so that the color of the gown shows through them.

The short throat necklace and the brooch are also revived after these many years. It is said that the return of the Bertha collar has brought them back into vogue. Short throat chains which fit the neck are becoming extremely popular. Amber beads are said to be the favorites of the moment—the kind that grandma used to wear tightly around her throat to ward off goiter. Next to amber, pearl beads in short lengths are favored. As for brooches, old-fashioned cameo and cut jets and carved ivories are considered quite the smartest thing for 1923.

Capes and cape-coats are popular among the new spring displays and will probably be as stylish this coming season as they were last spring.

Many of the younger misses are wearing almond green chiffon frocks for evening wear. These mid-winter frocks of green are invariably made with tight bodices and bouffant skirts and are untrimmied save for touches of silver or gold.

GIRL SCOUT NEWS

The last session of Mrs. Leo Lawhead's scouting course of six lessons will be held this evening when all the end of the course should be gathered up and settled. Mr. Reginald Stephens, now of Clearfield, who has had scouting experience at

its original home in England will be present to discuss work with the compass and scouting in general as he has known it. There can be no better sign of the very great appreciation which the staff has for the help given by Mrs. Lawhead than full attendance at this last meeting.

How To Keep Your Baby Well

A Weekly Talk to Mothers, Issued Through the Babys' Prophylactic Clinic, Henry Phipps Institute 7th & Lombard Streets, Philadelphia.

POOR APPETITES IN CHILDREN

One of the most common and interesting things about some children who are apparently normal otherwise is their poor appetite. Appetite, or the desire for food, is such a fundamental instinct that its lack in what seems to be a healthy child is sometimes puzzling.

Of course a poor appetite is often associated with ill health. For this reason, if your child does not seem to enjoy his food, be sure to have him "gone over" by a reliable physician to exclude any possible physical causes, such as enlarged adenoids and tonsils, etc.

Should no physical cause be found, however, the child's poor appetite may be due to other factors. What you think is poor appetite may not be poor appetite at all.

Like adults, children vary in their needs and capacity for food. Some of them require a comparatively small quantity to maintain their proper growth rate, health and vigor. Others, on the other hand, need more. Therefore, you must find out just what capacity of your child is. Do not think that because Jamie Jones, who lives next door, eats twice as much that he is necessarily a healthier child.

Remember that a good appetite is dependent upon the contractions of an empty stomach's wall. If food is

constantly present in the stomach, the walls do not contract as hard as when the stomach is empty. Consequently the desire for food does not occur. Because constipation prevents proper contraction of the stomach, it may also cause poor appetite.

City children more often than country children show little desire for food. To a large measure, this is due to their highly artificial methods of living. Children's natural inclination to romp can not be gratified as readily in the congested city streets or in the over-furnished rooms of the city dwelling. Therefore, they can not very well do the natural things that children love to do. They are constantly being watched and forever "don'ted" until their desires and inclinations are stunted.

These continuous assaults on their nervous systems can but result in nervousness and poor appetite. If you will but permit your children to romp and play unmolested in a room free from all articles that can be broken or damaged, or better still, outdoors in the fresh air and sunshine you will find that their appetite will be improved.

NEW POSTMASTER FOR LOCK HAVEN

For Creaky Joints

Just rub on the new application called Joint-Ease if you want to know what real joint comfort is. It's for stiff, swollen or pain-tor-tured joints whether caused by rheumatism or not. A few seconds' rubbing and it soaks right in through skin and flesh right down to ligament and bone. It oils up and limbers up the joints, subdues the inflammation and reduces the swelling. Joint-Ease is the one great remedy for all joint troubles and live druggists are dispensing it daily. A tube for 50 cents.

Tom Sims SAYS---

Turks have made marriage compulsory. Another Turkish atrocity. In Italy, if a man doesn't vote they give him medicine. In America they should give it to some who do. It took five years to bore a tunnel under the Catskills. The next biggest bore is the man who wants to borrow a dollar. It is so hard to make your auto run on cold morning and so hard to make your nose stop. There is so much weather it all can't be good. Five Frenchmen will attempt a flight around the world. Even if they succeed it will not get them any where. Put confidence in too many strangers and you soon won't have any. Our language tickles. Being down in the mouth gets one up in the air. Trim ankles trim men. "Hello, how is your wife today?" is a greeting now. In a few years this greeting may be "Hello, who is your wife today?" It is getting so that when a boot-legger is arrested he raises Cain if it makes him get home late for supper. It is cheaper to move than to keep up with the neighbors. It sounds easy to get married and make your home with the parents of the bride, but it isn't. Men who think they know it all do not know all they think. Run around and you go in a circle.

Pennsylvania Produces Over Six Billion Dollars

(Continued From Page One.)

as follows: Building and contracting, \$252,793,300; chemicals and allied products, \$339,956,700; clay, glass and stone products, \$152,565,400; food and kindred products, \$499,815,700; leather and rubber goods, \$197,473,600; beverages, \$32,831,200; lumber and its manufacture, \$110,134,100; paper and printing industries, \$275,163,400; tobacco and its products, \$122,223,700; miscellaneous, \$270,740,700.

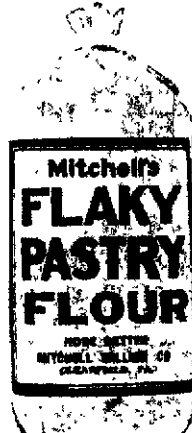

Industrial employees in the State as represented by the various industrial classes, were divided as follows:

Building and contracting, 72,399; chemicals and allied products, 25,097; clay, glass and stone products, 45,288; food and kindred products, 52,275; leather and rubber goods, 31,383; beverages, 5,036; lumber and its manufacture, 27,240; paper and printing industries, 45,520; textiles and textile products, 208,382; metals and metal products, 310,874; mines and quarries, 353,826; tobacco and its products, 37,592; miscellaneous, 53,787.

Male workers exceeded, in numbers, female employees in all of the industrial classes excepting textile and textile products and tobacco and its products. Of the 208,382 workers in the textile trades, 129,611 were females and 78,771 were male workers. In the tobacco plants of the State there were 37,592 employees.

TRINITY CHURCH EVENTS

Yesterday brought a decrease in attendance at every service. Big fall off of 94 to 300 in Sunday school record. But morning congregation was not proportionately affected. From Matt. 16; 13-18 and 1 Cor. 3-22, the pastor developed the "Value of Experience." At night, from Romans 7:24-25, the proposition of the "Reality of Victory" was worked out from several angles.

Trinity Church was represented at the mass men's meeting in Curwensville in the afternoon, following which Rev. H. L. Jacobs, acting for District Superintendent E. A. Pyles, conducted the fourth quarterly Conference of Curwensville charge.

Wednesday, 3 p. m. monthly meeting of Woman's Home Missionary Society. Mrs. Orcutt's group in charge of program and social hour: 7:30 mid week congregational meeting, followed by monthly meeting of Sunday School Board. Next Sunday a Bible School rally at 444 minimum attendance; afternoon, every member canvass for the Budget; state-

ment for Conference year, 1922-1923 placarded in the Church for every service next Sunday. Pastor called attention to Advocate subscriptions and Conference minutes, which will contain the memoir of the former pastor, Rev. W. W. Hartman, deceased. Reduced rates to conference in Harrisburg were announced for all persons going to Harrisburg March 12 to 21.

Dr. KING'S
NEW DISCOVERY
the family cough cure

WHY RISK IT ANOTHER DAY?

That cold, draughty house that you "simply can't heat" is needlessly exposing your family to illness, not to speak of the discomfort they suffer. In a day we can convert it into one of abundant, cheerful warmth with delightfully agreeable, warm moist air circulating everywhere, putting even the coldest corners to rout. And the cost to you will be lower than next year if you will contract now for a—

ROUND OAK PIPELESS HEATING SYSTEM

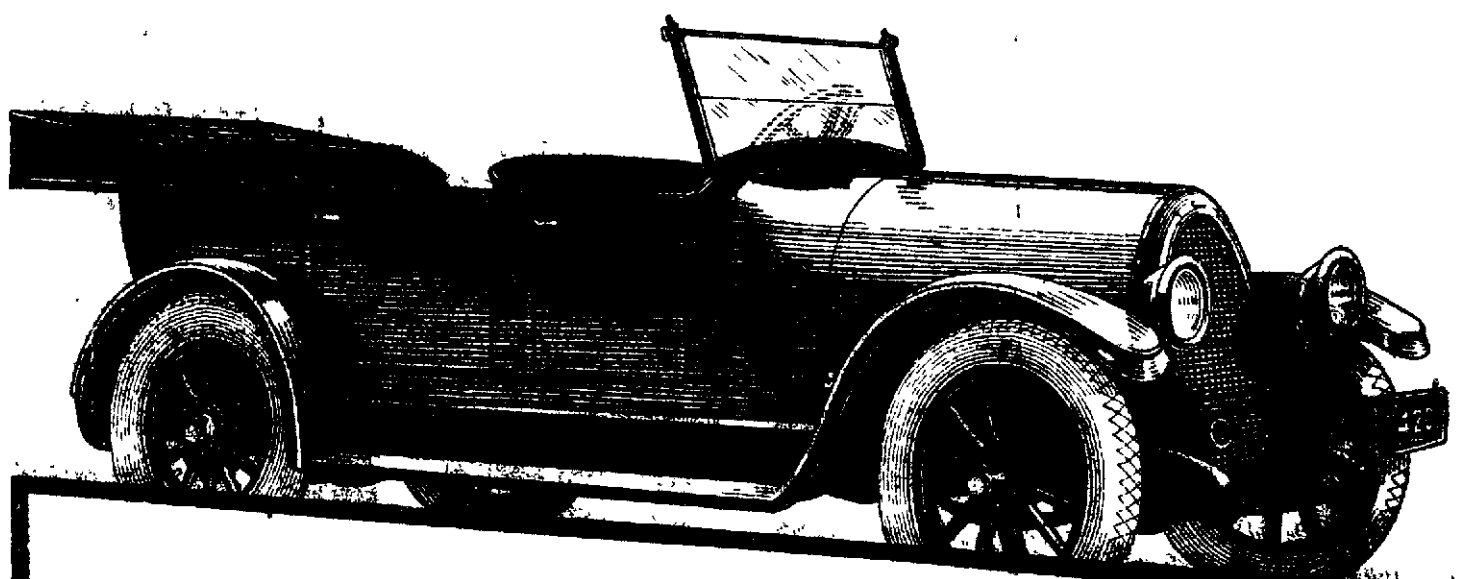

Service and quality considered, it is, without question, the greatest possible value.

When you divide the investment into the years of its usefulness, you sense why it is the wise choice.

NEWS OF OUR NEIGHBORS

CURWENSVILLE

A son was born to Mr. and Mrs. Harry Foust at the home of Mr. Foust's parents, Mr. and Mrs. David Sipes on the South Side last Friday.

Art Slutsky, of Altoona, spent Saturday with friends in town.

A sufficient number of signers or guarantors have been secured to insure the return of the Swarthmore Chautauque to Curwensville some time during the year. Undoubtedly good results were obtained from Chautauque's recent stay in town, and there was not much hesitancy about these same guarantors signing up for another whirl at this entertainment.

Mercantile Appraiser Miller was down from the highlands of the Grampian hills Saturday sizing up the business houses and leaving some blank sheets for the merchant to study over and fill out.

Yesterday closed the week's sessions of the re-dedicating and re-opening for general services the re-dedicated Methodist church. Eight ministers from different sections assisted Rev. Collins in work, and a strong reawakening of religious zeal was manifested at every gathering. The men's meeting Sunday afternoon drew a good attendance and was a religious, intellectual treat for all.

Fred McKenzie, who recently purchased a restaurant at Woodland, and is now in possession of the same, was a Curwensville visitor Saturday night. He came up from Pittsburgh where he had been serving as a cravener in the United States court for the past two weeks.

The body of Russell Frederick Bloom arrived in Curwensville on Saturday evening and was conveyed to the home of his parents, Mr. and Mrs. John H. Bloom, near the borough line. The funeral services were held at 2 o'clock Sunday afternoon, Rev. B. H. Conly, pastor of the Presbyterian church, officiating. Despite the cold and snowy weather, a large concourse of relatives and friends of the deceased followed the remains to Oak Hill cemetery. A firing squad from Joshua Earl Sipes Post, American Legion, accompanied the funeral cortege and fired a salute over the grave.

Mrs. Oliver Strunk, Bloomsburg avenue, who has been ill for a number of weeks, is not improving very rapidly, greatly to the distress of her many friends.

Mrs. Owen Jones returned home after visiting her son at Jersey Shore.

Born to Mr. and Mrs. Fred Jones at their home in Jersey Shore, Jan. 25, a daughter named Freda Jane. The little lady arrived on her father's birthday.

The Methodist people, after having spent over \$5,000.00 in repairing their church, are now busy holding special services in re-dedicating the church. Dr. Fletcher Biddle, of Mount Union, spoke Sunday morning, Dr. Jacobs, of Trinity church, Clearfield, spoke in the afternoon, and Rev. John Skillington, of Osceola, spoke in the evening. The repair work of the church is certainly a great credit to the congregation.

The new carpet alone cost over \$2,000.00. Mrs. Fred Dyer presented the church with a new set of hymn books; Charles Conrad presented a new pulpit hymn book; Mrs. Fred P. Robinson presented a new mat for the pulpit table, and Miss Mary Wolf presented new mats for the collection plates. Numerous gifts were received from friends out of town, who once lived in Curwensville. Miss Mary Swoope, during the week of dedication, has kept the pulpit well supplied with most beautiful flowers.

Miss Muriel Quigley, of Clearfield, visited her friend, Miss Helen Norris, over the week end.

The literary program at the High School Friday evening proved to be one of the best of the season. Mr. Fred P. Robinson surprised the audience with a number of entertaining exercises. Mr. Robinson is a real artist in his line and is kept busy by many calls from out of town. He has a number of original make-ups that are most pleasing and entertaining. His impersonations and dialogues have a technique about them seldom seen in professionals.

Nearly everybody in Curwensville is looking forward to next Friday night when the Senior Class of the High School will put on in the local theater building the comedy entitled "Mrs. Wiggins' Telegram."

The Seniors of the High School have just finished up their work on the High School annual. They are putting into this annual 60 half tone cuts and twelve etchings, making 78 pictures in all besides the buildings and several cuts from last year. They are going to sell the annual this year at 50 cents instead of one dollar as last year. They will publish 800 copies. They are now taking subscriptions. From what we learn it might be well, if you want an annual, to subscribe now, as the subscriptions will all be reserved.

Prof. Norris has just completed his reports for the first semester of school. It is very voluminous, so much so that he had it bound at the book binder's office. It contains the results of the examinations, grade of work done by each teacher, a complete book report and about fifty pages of a report on Education Week. Any one desiring to see this report may have the privilege by visiting the school, where it is kept.

Mr. and Mrs. J. B. Novling are spending some time with Mrs. J. G. Clune at Jamaica, L. I.

Brilliantly Revived

(National Crop Improvement Service)
"A DARK barn is almost always a dirty barn," says Dr. C. H. Eckles, of Missouri.

A self-respecting cow, the kind that is capable of producing a clean, wholesome food at a profit to the farmer, can't be expected to do it in a dark, damp, dirty barn, with no animal comforts and less sanitation. The farmer himself would reflect the dreary atmosphere of the place, and fall short of his own possibilities.

Change the dairy eyesore to a

well arranged barn, with ample light, good ventilation, modern equipment, running water, and centrally located feed bins, etc., and the cow perks up and starts on the upgrade of profitable production, and the dairyman gets his work done better in less time, is the statement of Dennis A. Meridian of the American Steel and Wire Co. The latter carrier makes it easy to keep the stalls clean, and the easily reached feed and hay chutes, and the running water, make former drudgery merely straightforward routine.

HUNTING LICENSES TO COST \$1.50 NEXT YEAR IF PRESENT PLANS GO

Harrisburg, Feb. 19 (U. P.)—The proposed increase in the cost of the hunter's license from \$1.00 to \$1.50 included in the new game code now being considered before the Game Committee of the House of Representatives will permit the work of the Game Commission to continue on the same scale as in the past, according to a statement made public by the Commission today.

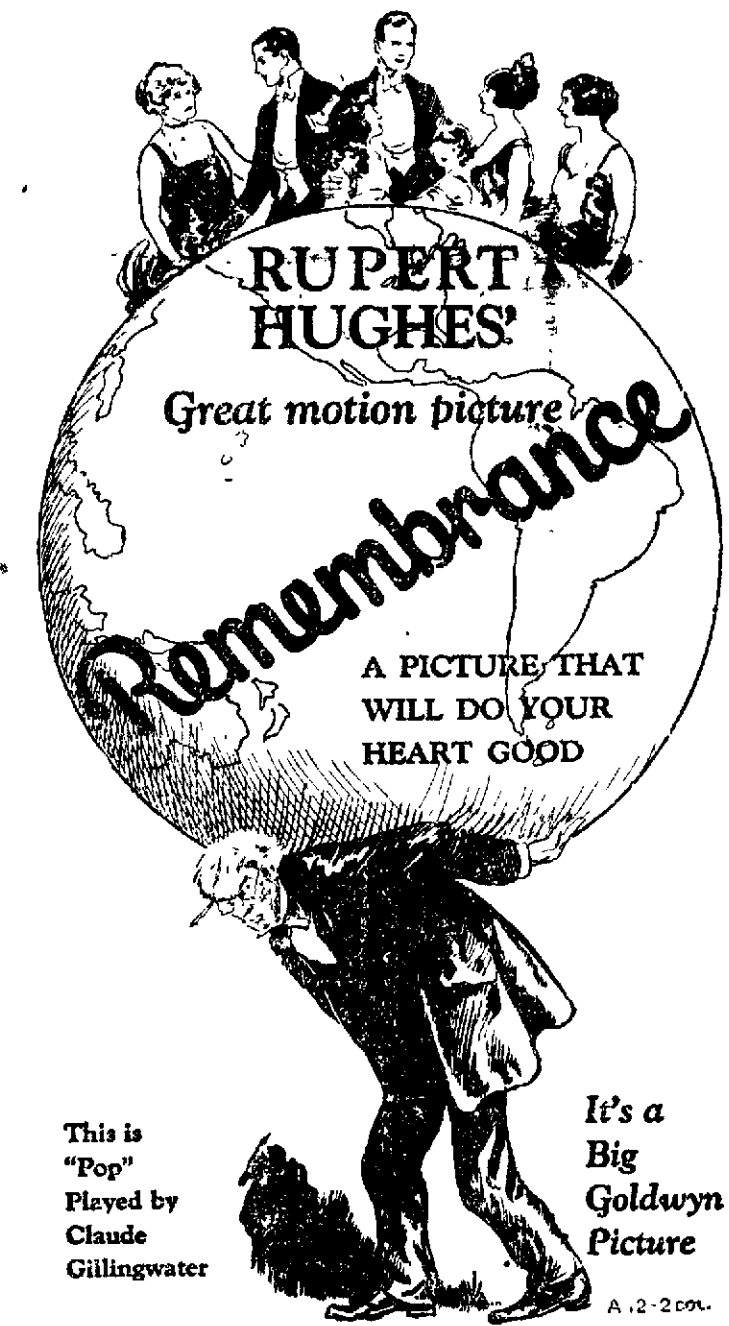

At its last annual meeting the

Game Commission in discussing the draft of the game code voted to go on record as approving the proposed increase if it were made a part of the code as submitted to the legislature. The increase was said to have been recommended by a number of sportsmen's organizations of the state.

The statement issued today offered the following suggestions favoring the proposed increase.

1. Unless more funds are available the Commission cannot continue its game program on the same scale it has since its beginning.
2. The number of licensed hunters increased from 300,000 in 1913 to 475,000 in 1922, intensifying all wild life conservation problems.

3. The present game refuge system should be given adequate fire protection by modern methods.

4. Lands now held under lease as game refuges should be purchased outright before leases expire.

5. The refuge system should be extended before private hunting clubs have secured most of the most desirable territory.

6. The Forestry Department is unable to extend its state forest holdings during the next four years.

7. The increase in the number of hunters demands more field work, more game feeding and especially a far greater expense for restocking.

8. The Game Commission receives only ninety cents of the present dollar fee; all of the proposed increase will go to the Commission.

9. The recent report of the Citizens' Committee made after a survey of the game situation in the state recommended an increase to \$1.50.

A baby girl arrived February 4, 1923 at the home of Mr. and Mrs. Ernest F. Carr of South Fifth street.

TO RELIEVE PAIN AND BACKACHE

Women May Depend upon
Lydia E. Pinkham's Vegetable Compound

Minneapolis, Minn.—"I had heard so much about Lydia E. Pinkham's Vegetable Compound that when I realized I needed to take something to relieve my pains and backache, and to help build me up I began to take that. I had been sick off and on for years and barely weighed a hundred pounds, but now I have had such good results that I am recommending the Vegetable Compound to every one."—Mrs. J. J. BIERER, 2839 18th Ave. South, Minneapolis, Minn.

Finds a True Friend

"Every woman who values her health should be proud to have a true friend like the Vegetable Compound," says Mrs. W. E. Shaw, 3227 Walnut Street, Chicago, Illinois. "I had female weakness so badly that I could not stand on my feet. Half of my time was spent in bed and I had pains in my back which were unbearable. I tried everything I could think of to help myself, and when a friend advised Lydia E. Pinkham's Vegetable Compound I began taking it at that time. I recommend it without hesitation."

KEEP STRONG

One bottle of pure, emulsified Norwegian cod liver oil taken now, may do you more good than a dozen taken a month hence. It's more economical to give your body help before resistance to disease is broken down. A very little

SCOTT'S EMULSION

OF PURE NORWEGIAN COD-LIVER OIL

goes a long way in sustaining strength and keeping up resistance. Resolve that you will buy a bottle of Scott's Emulsion at your druggist's on your way home, and start protecting your strength.

The exclusive grade of cod-liver oil used in Scott's Emulsion is the famous S. & S. Process, made in Norway and refined in our own American Laboratories. It is a guarantee of purity and palatability unsurpassed. Scott & Bowne, Bloomfield, N. J.

Are you sending the whole child to school?

Everybody worth loving at all loves children. You'd horsewhip the man who mistreated one. Yet has it ever occurred to you parents that through neglect of their eyes you may be subjecting your children to the most cruel abuse conceivable?

Five million school children in this country—a fourth of all the children in all the schools—are not equipped for the work. And what they lack is the most vital weapon of all—good eyesight.

There is a duty here and that duty is plainly the parents'. Your child's chance in life may depend upon your taking action now in this matter of his eyesight.

Wellworth Windsor spectacles are suited to an active child's needs. We guarantee the most careful examination, one moreover that will fascinate the child. Do not delay a moment in getting the facts about your child's eyes and in acting upon them promptly for the sake of his future.

STEWART'S DRUG STORE

Skin Ablaze with Eczema Constant Itching Almost Unbearable!

We know there is one thing that stops eczema, and that is more red blood cells! You can increase your red blood cells to the point where it is practically impossible for eczema to exist. We know that as

blood-cells increase in number, blood impurities vanish! We also know that night follows day. Both are facts. But have you, eczema sufferers, ever actually taken advantage of this wonderful fact? Thousands just like you have never thought about it! Skin eruptions, eczema with all its fiery, skin-digging torture and its soul-tearing, unrelenting itching, pimples, blackheads and boils, they all pack up and go, when the tide of blood-cells begins to roll in! Blood-cells are the fighting-giants of nature! S. S. S. builds them by the million! It has been doing it since 1892! S. S. S. is one of the greatest blood-cell builders, blood-cleansers and body-builders known to us mortals! When you put these facts together—then to continue to have eczema and skin eruptions looks more like a sin than a disease. Mrs. Arthur N. Smith, Pearl St., Newark, Ohio, writes:

"My little girl had a very bad case of eczema. She began taking S. S. S. and in well now. I thank you very much. I tell my friends what a good medicine it is. I cannot tell too much about it, for I know it is O. K."

Here is your opportunity. S. S. S. contains only vegetable medicinal ingredients. Because S. S. S. does build red blood-cells, it routs rheumatism, builds firm flesh, fills out hollow cheeks, beautifies the complexion, builds you up when you are run-down. S. S. S. is sold at all drug stores, in two sizes. The larger size bottle is the more economical.

S.S.S. makes you feel like yourself again

Prescriptions Filled Accurately

The accuracy with which we fill prescriptions has begun to tell on our prescription business every day. It is increasing every day and we are hearing some pleasing things about our service.

Aughinbaugh's DRUG STORE

HAVE DARK HAIR AND LOOK YOUNG

Nobody Can Tell When You Darken Gray, Faded Hair With Sage Tea

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.

Well-known druggists say everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied—it is so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and beautiful.

ITCHING ECZEMA DRIED RIGHT UP BY THIS SULPHUR

Any breaking out of the skin, even fiery, itching eczema, can be quickly overcome by applying a little Mentho-Sulphur, says a noted skin specialist. Because of its germ destroying properties, this sulphur preparation instantly brings ease from skin irritation, soothes and heals the eczema right up and leaves the skin clear and smooth. It seldom fails to relieve the torment and disfigurement sufferers from skin trouble should get a little jar of Rowles Mentho-Sulphur from any good druggist and use it like a cold cream.

Aspirin

Say "Bayer" and Insist!

Unless you see the name "Bayer" on package or on tablets you are not getting the genuine Bayer product prescribed by physicians over twenty years and proved safe by millions for Colds, Toothache, Earache, Neuralgia, Headache, Lumbago, Rheumatism, Pains, Pains. Accept "Bayer Tablets of Aspirin" only. Each unbroken package contains proper directions. Handy boxes of twelve tablets cost few cents. Druggists also sell bottles of 24 and Bayer Manufacture of Monoacetic acidides of Salicylic acid. 100. Aspirin is the trade mark of Bayer Manufacture of Monoacetic

WATCH REPAIRS WHERE WE SHINE

The making of repairs on watches is one of the things which receive special attention in this shop. Every watch that comes in is given close scrutiny and the repair work is done under my personal supervision.

You will find that the folks who have been having their watch repair work done here, other than emergency work, don't have a lot of trouble with their work once it has been done here.
